Subject: Re: Why is it that repair units can not repair themselves?

gibberishLoads of games do it:

- Ground Control.

You can get a repair/medic unit that often can repair infantry, vehicles or both.
However they don't self repair (eg. Hotwire can't heal herself *).

My question is why?
The combat engineer vehicle in Ground Control 2, can repair infantry, vehicles and himself. Just place it in deploy mode.
