Theres a total of 54 in there right now. I just finished uploading all the new ones. Anything with a question mark in the description means it was a long time ago and I am not positive what I was taking an SS of. If you have any questions just ask me.

Also, will the new errors I just posted be fixed in time to be included in CP1?

I'm afraid not. CP1 is almost done and we are in the final phases. A few vis fixes have been applied, but I guess there's room for more in CP2
