I like the see through WF on city flying. If you haven't seen it stand facing the bar. in the corner to the left of the door by the bay. make sure you are in the corner and look right to left you should be able to see through the wf wall.

there is a similar one on walls behind the rock on the right of the gdi entrance. You can see everything goin on in GDI's base and still be behind the wall. Scared the hell out of me the first time i saw it.
