You'd be better off using Max to add an invisible barrier there, instead of LevelEdit. I don't think there's anything in it that can accomplish what you're looking for.

Quote:dobt that will help getting a job any where considering you don't even have a HS diploma.

A diploma is pretty irrelevant considering most kids coming out of high school are illiterate, ignorant people with little regard for anything but themselves. I'd rather learn by myself instead of go back to the place I was to get a piece of paper saying I stayed there for four years.

Simply because you have a diploma doesn't mean you're intelligent, nor does it guarantee a job.
