Yeah, it's a highly effective nuke strategy, but one of the more obvious bugs in the Renegade maps. Another incentive to fix it would be that if newcomers to the game saw people running around on the roof of the barracks in a RenGuard server, they might go "OMG HAX!" and you could get a load of angry e-mails requesting a fix to people haXXz0ring their way onto the roof of the barracks.

My vote: Yes, fix it.
