PointlessAmblerNo, you're just trying to lash out in some way, no semicolons were required in that post. None.

I can't tell if you're trying to be funny here... While telling me ACK didn't make any mistakes, you made the same mistake that he did.

If you actually look at rules of semicolon usage, you'll see that when you have two independent clauses that are not joined by a conjunction or a correlative, you need to use a semicolon to join them. (Alternately you could use a period and make it two sentences, but you can't merely use a comma.)
