Quote:Um... You're saying he's calling it ugly because normal (real) Akulas don't have rocket launchers.

I'm saying hes calling it ugly cause maybe he doesn't like rocket launchers! Who knows... It's his opinion, let him stick to his and you stick to yours. Unless your a forumsbvangelist you don't need to convert him or anyone else to your line of thinking. What if the real Akula sub had those rocket launchers? He could still call them ugly... Not because it has or hasnt them, but because he thinks they look ugly...
