Does Ren guard work with ren alert? Becuase even thought the game just came out ppl are already cheating. How these losers without lives get cheats so fast i dont know but they have cheats and are already using them in the new ren alert game.

It might just be that you're not very skilled, and as such, believe everyone else cheats.

Whether there are cheats or not in RenAlert, I've yet to see any of them active in n00bsvr03...

Though if you have any names of people you think cheated there, plz share...

Someone could make Renalert cheats in about 20 seconds, but, I don't think the have a good reason.
