hi, im looking for a place to host a cheap renegade server
cheaper then st0rmhosting X_x does anyone know a cheap place to rent a renegade server with a
good connection?

St0rmhosting is the cheapest. If you don't want to use them use hostvirus.com

rent?

well i heard <http://www.hostvirus.com> is cheap but i dont know about renting

(hey cow you should pay me for that)

Thanx for the kind words guys, however, we have ran into a tad problem.
The linux FDS will only work on Gamespy, so until we find a fix for this or someone makes a fix for
this sadly we won't be able to run servers enless you want them on gamespy.
