Out of interest.. have you implemented the Invision Board in acting like a News Script? (e.g. 1 Category on the Forums is used for posting news and it is displayed on the front page).

If so, how? I'm trying to do just that and no-one seem's to be replying to me at their forums.

Matt, in the admin center there should be a thing about News.. you can call it via SSI includes or PHP includes. They're not answering you because you're using the unlimited free trial and not the registered version.
