Same as me.
When i go to <http://www.renegadeforums.com> before, it said HI. and i need to go in by using <http://www.renegadeforums.com/index.php>

DarkDeminnot really just a simple question...

Sorry I never realised you were asking a serious question. :oops:

If you see the word "HI", that's the default page on my new web server when you don't access a valid domain. I don't know why Apache would give you that page unless you mis-typed www I guess.

damn... I thought maybe she was FINALLY installing some other "ignore" icon that any number of people have given her over the last 2 months..

am I the only one that thinks it is totally out of place for a 10 second fix?
