Hi Guys

I have the Renguard & Brenbot installed on our server But for some reason it kicks people even if they have the Client side installed then if they logg out of renegade & come back into the server its ok? am i missing something here?

Thanks in Advance to anyone that can shed light on this Issue btw i have tried it in pure mode and not pure mode still the same.

Make sure you're using the latest version (1.35 of BRenBot) which fixes all known bugs with kicking players who are on the network.

Otherwise, please visit our support chat and talk to us.
