my friend has this problem wen going into renegade thru renguard:

Trying to connect to server #1...Connected
Connected to server.
Welcome to RenGuard ,
To launch Renegade, please click 'Renegade'.
Unauthorized file game2.exe has been found in your renegade directory
WARNING: Model Textures (Skins) have been detected on your client! You will not be able to join a pure server.
Unauthorized file game2.exe has been found in your renegade directory
Disconnected from RenGuard network

wat is the prob?

game2.exe would be his Renegade game executable. Does your friend have a nocd patch? If so, it may not be authorized with RenGuard yet. There are ways of fixing it.

1) If there isn't a nocd patch, try reinstalling Renegade. Somehow your game.exe was changed and made it incompatible with RenGuard.
2) If you have a nocd patch, send in the nocd patch to the RenGuard team so they can test and authorize it.
3) Download djlaptop's nocd patch
(http://www.beaconpedestal.com/nocd/djlaptop_renegade_1037_nocd.exe)
4) Download zunnie's nocd patched game2.exe which you'd simply have to just replace your own with. (http://zunnie.hellrazer.net/game2.exe)
