Are you guys going to make it so that for Nod, when you hold J to see your team's stats, that it will say which Black Hand someone is? Right now if someone is a Black Hand it just says "Black Hand", but would it be possible to make it say "Black hand Sniper", "Stealthed Black Hand", ect...?

npsmith released a strings.tdb fix a while ago that fixed that somewhat. The SBH had a different tag than the other two at least.
