i keep hearing people saying that the editor sucks.its bad etc,INstead of complaining like a 14 year old child.Try to learn it, by experimenting, Try the options, make alot of levels, witout mountains.just for testing.And i think is good that the editor is here.All new things is hard to understandBut consider this. in gratefull to hjelmstrom etc for makeing it.And takeing their time to mapping purposes.But what would take most time.Learn C++ and renegade code. then make a editor.Or just learning the editor.Well i know what im gonna do.. im gonna learn to use the editor.And im quite sure that along the way someone Will make another editor. but until thenBe happy.. quote:Originally posted by doom5393:i jsut tried it it doesnt work cause its EVILTry these few steps.1) Calm down.2) Go here (EQC's tutorial)3) Follow the steps there.4) Import the file into the editor.5) Check the other tutorial for help with the level stuff.6) Have fun with your new map.And remember, fun is the important thing. If you can't calm down, leave it be.

What would be even better guys, instead of makeing new editors, make new features. Like we find a way for more PT stuff....like another main menu with sub categories.Main Menu-->
Menu2-----> Vehicles Special Vehicles2 Beacon Refill
Vehicles3 Charecters Charecters3 Charecters2 Whatever
Whatever2See kind of what i mean?
