Well I think u r full of bullshit Twix.

First off all you post at 8:08 and then in 60 sec. time you manage to:

1. Rethink your decision about posting it.
2. Wonder wheter or not you should edit your post
3. Actually click on edit the post.
4. Edit + Save it.

Well steps 3 and 4 should have taken those 60 sec. already. So you probably didn't have time to think about it. Unless you didn't want to see it in the first way.

What I think is that you wanted to let us talk about this pointless and non-existent thing called "m00hack"... You are just dying for attention...
(You are worse then my girlfriend...)

oink, oink, snort, snort! :bomb:

M00Hack? M00 as in cow, and cow as in coward?

I get it, a coward hack! So you use this so called M00hack to make your self have the abilities of a coward! Cool, all you can do is run away in fear! Wouldn't that cripple your game play though, using a hack just to make you capable of running away? Wow, strangness, most people don't need hacks to run away and stay alive, I guess you have been having some very bad problems with learning to play the game. And I thought my dislexia was bad for my grammer, but you take

the cake with needing a hack just to run away. Most people just pull out the pistol when they run out of ammo and backstep to safety as they shoot.

By the way Twix, to get to the pistol, scroll your mouse wheel till you see it, or press "1" while in a game. To backpeddle, press either the down arrow or "S" if you have not changed your control configurations.

I have a hard time his behavior is just from smoking something. He had to have been dropped on his head several times when he was a child. He then probably is on a few drugs. And I wouldn't be surprised if more was involved.

Oh, and if you could, move along and leave these forums and us alone.

sigh I guess I was to saddle with that joke as well.

No I am not smoking any thing, I was joking around. As far as a cheat or video goes, I could really care less. I was trying to make a joke out of making a mackery out of the subject at hand. I thought the inconsistant dialog would make it more then clear.

Twix, are you demented or something? Placing a link to a porn content at these boards is illegal in the first place. People under 18 years old have access to this website. This thread would have been deleted a long time ago if you didn't edit it out. Crimson won't let her self get sued because a board member place pronigraphic mattiral on her boards.

She would get sued if she or another mod didn't remove it. It's a public forum where it seems that the majority of the members are 12 years old or at least have the maturity of such. Plus, she doesn't have a disclaimer stating that you must be 18 years old to view this forum because of such and such possibility of pornography blah blah blah.

Jaden, I'm pretty sure IRON-FART got what you meant, I am also fairly sure that it wasn't aimed at you. I don't know for sure, it could go either way, but I'm fairly sure it was aimed at "It's all in the mix."

Oh, well I could tell that he was joking. I pretty much figured that out because when everybody started going, 'F33R T3H M00H4X" they were saying it was so elite because it did this and this and this, but it never said anything about running away. Plus common sense leads you to see that Jaden was joking, but I could also see where him being new makes him seem n00bish and capable of being that big of a moron.

I don't know, but there is no records of a M00H4CK in the WOL listings, and it is a WOL game. If this username existed, this persons rank should have been bounced up a real high ammount close to 3 or even 2 diget numbers, as this person would have cheated to it. You type in M00H4CK in the listings, and this person is just non-existent. So, you either edited it your self, or got it from a friend who edited it for you.

With the right tools you can make a bogus thing like that. If the picture was taking off of renegade while playing it, you would have to be in a LAN game or on a non-ladderd server, with the whole perpose of that game to just make that BS up.

z310All you had to do is look at the kill/death ratio
or look at the GDI and Nod scores. M00H4CK alone has more points than it shows on the scores.
Plus, that name is like twice as big as any other name on there except for GRUPHY. So obviously
it was fake, anyone who possibly thought it wasn't photoshopped needs to look again.
