Until I suddenly remembered while browsing through Planet C&C... I had made about 15 songs for Renegade and some other stuff.

My personal favorite is "Renegade Strike" followed by the Kane Mix of Nod Ambience. This stuff was done about a year and a half ago, if not longer.

Ya, I got all the songs a while back, even burned them onto a few CDs for myself & friends. Forgot about having them on my comp...guess I'll go ahead & listen to them...seeing as I have just about nothing to do

ACK, you're a talented musician but unfortunately I don't like the genre.

I remember you making some songs a long time ago...Good old RA2 forums times.
