ok first off are there any links for upgrades for level edit like scripts because i cannot find any.

second link me to any mods that are cool

i already have links to

renalert
renegade a new hope

so if there are any mods that are for renegade and fit there guidelines please link me to the site.

its just cool
has anything to do with warcraft
has anything to do with starcraft (i have herd people talking about sc ones but no links have been given yet)
anything that has to do with modern wepons
anything that has to do with command and conquer generals
anything that has to do with futuristic wepons and stuff
and i would like a link to the reborn site i can't find it
anything that has to do with ww2/vietnam/gulfwar

and please don't argue about what mods are good/bad because i know the reborn people and the renalert people are going to turn this intop a flame war so please don't.

Uhh, since when do "we" as a team start insult fests? I hate to break it to you but not everyone who fights here about "Rebarn" and Renegade Alert are part of those respective teams.

I thought Commando was supposed to be Tib Daewn, what exactly does that have to do with any of WWII, Vietnam, or Gulf War?

Tiberian Dawn takes a few years after the Gulf War.

Quote: Towards the end of the 1950'ies, the UN outlined the purpose of the secret Peace Corps, and stated a number of other policies regarding its activities which are still classified today.

The Peace Corps became active under the designation of: "Operations Group Echo, Black Ops 9".

It would eventually be the ominous operation "Desert Storm" that would officially reveal the existence of

Operations Group Echo, Black Ops 9 and their purpose as a specialized international peace enforcing unit.

When the international media discovered that the attempted assassination upon Saddam Hussein by OGE, BO9

(in a covert effort to prevent the outbreak of the Gulf War) was a complete failure with the resulting in

the death of a large number of agents, OGE, BO9's first contact with the general public was a catastrophe.

Nevertheless, it wouldn't be too soon before the UN would be in the press again, this time to officially announce the existence and purpose of the organization

and to come together one more time to rewrite the proposal of the late 1950s.

In accordance with the United Nations Global Defence Act (UNGDA), the Global Defence Initiative was founded

at the date of October 12th, 1995.

Ever heard of Google? Seriously, if you want to find the Reborn site, just type in "C&C Reborn" in google, and WOW! You've got the site right in your face instantly!
