Stop leaking those mods.  
You leaked reborn before too, Aircraftkiller said too, I saw you posted on your website before too.

Yeah, why he leaked it?  
Because he got fired. And he wants revenge.  
Ask the mod leader, HTMLGOD. It's AM 01:57 now, almost need to sleep.

Dont worry, i have been arround since you were "aircraftkiller2001" and when Planetshaun was doing those 1st mission playable orca mods and the \*ahem\* "FlyingBuzz" problem and...oh, wait, i was here even before Renegade was announced...

The thing is that this anti-Reborn thing needs to stop.Its just a mod damn it!Why keep drilling it?

To think that I was foolish enough to let this idiot join my team. Well thanks, moderators, for taking down the link, and thanks Blazea and Ramjet for deleting the file from his webserver. For those of

---

you who didn't know, Deadaim00 is a mapper that requested to join the team. I wasn't going to give him any of the alphas, but one of the other crew members gave it to him without knowing that he wasn't supposed to receive it. In any case, Deadaim00 never completed a single decent map, was incredibly annoying, and pestered me constantly for our alphas, even though I told him he needed to do some work. In short, he is an unproductive, assclown who has no business in any position of power.

And crimson, I would greatly appreciate it if you would ban him - this community has no need for people who are just out to exploit and abuse the few good mods in progress.

It's just like "I killed a people and I can say sorry and go away."

Or the best way is: Just see what HTMLGOD says.

It's his option to forgive you or not.

Shame on you deadaim, people work hard on things and you ruin the surprise. And for Kirby your proly going to go down this same road as Deadaim, you always asked for betas. Every mod site's froums I've been to there is always a topic called "GIMME BETA!" by Kirby. And if you ever get a beta, which i doubt, you'll proly leak it just like Deadaim.
