Hello I have a problem with Brenbot. Every time I it start then indicate it to me the following message:

```
./brenbot
Starting up renrem thread...
BRenBot 1.35 linux.
brenbot is Copyright 2003-2004 by Blackhand Studios. All Rights reserved.
ERROR: Notify must be either page, msg or off
Died at renguard.pm line 82, <FILE> line 17.
```

I do not have already into renguard.cfg all this registered however it go nevertheless. one of you can me please helps thanks[/quote]

You seem to have edited renguard.cfg with a windows editor .. either run dos2unix on renguard.cfg

Or remove that notify line completely, and it should work.
