Angel of Dawn - <http://www.cncreborn.de> Today is another sad day for the C&C Renegade Community.

Renegade: A New Hope has been punished today by a single member of our community for whatever reason.

A leaked Alpha is a serious problem. Many people download it and again many of these downloaders don't understand that an Alpha is very early WIP work. If they don't like the Alpha cause it is not finished they don't give the final version a chance because they simply don't know what an Alpha is. I don't want to say the name of the leaker here because our site is not a place for flamewars but...

This is going to the leaker:

YOU are an idiot. You know it and you are since a long time. Your apology will not change anything. The leak happened on purpose and i hope many sites will punish you for it. You are not longer welcome at deezer Studios and your forum account has been banned.

This is going to the team of Renegade: A new Hope:

I offer you my condolences about this matter. We had many problems with this guy too. But you are on the lucky side, the link to the internal Reborn Alpha has never been deleted and many thousand people downloaded it. We will punish DeadAim00 on our forum by banning him, he is not longer welcome at deezer Studios or at other C&C and EA related projects i am working on. Keep up your good work and don't let a fool ruin your visions.

Why the fuck would someone do this?

Kinda reminds me of Alkaline. An idiot, he knows it, he has been forever, apologys do jack shit, many sites punish him, he is no longer welcome (here anyways), and his forums account has been banned.

Any1 else see the resemblance?

Yea that sucks for the New Hope team.

But I do have to take this opportunity to mention that the Fairy of Dawn is a true faggot. A retard. He calls people idiots, yet he is the biggest one. And he is quick to abuse his mod powers to delete/censor posts, and he is also very quick to impose bans. He also takes advantage of the Reborn site to spread his own worthless opinions which are of no consequence.

I hope he leave the Reborn team, and if he dies, well then thats just a bonus.
