Do you have a legal version of Renegade?

Are you connected to the internet?

Are you behind a proxy server?

Do you have firewall software installed?

Check to see if you are stupid.

Check to see if you can spell.

Check to see if you can take caps lock off.

And try and give a more in-depth synopsis of what is happening.

IRONFART/cowmisfit, why cant you just try and post something constructive, just help him, instead of whinging about formatting, not only are you wasting his time, your wasting your time and anyone else who thought they may get some help from this thread. Admittedly my post hasnt added anything to the solution of this problem, but im just sick of people flaming because someone used caps or didnt spell something correctly.

Good Job, you win "pointless post of the day" award and "retard of the day" award.
Congratulations
