Hi,

Just wanting to set up the Renegade FDS on my box and maybe installing a few extras like BRrenbox. Is it possible to run Renegade at the same time as the FDS? I'm only going to have about 4 players at max.

Thanks

CM\_NZ

yes, but you must start Renegade before you start the FDS.

You can also run game.exe with the /multi switch if you start the FDS first.

If you have Windows XP, you can run the FDS under another user account then you play renegade under.

just add MULTI at the end of the target box in the renegade shortcut
