People keep saying that and I didnt. And I dont remember asking you aprime. And I was not ban until some people suspected me in having the RA sub test, which is even more bullshit. From what i understand here, everyone is just pointing a finger at Deadaim00... Now if i understand this correctly, you say he supposefly has it, which i think is a lie, because you arent stating who gave it to him in the first place... Plus if you dont trust him, then why the fuck someone give it to him?

Im confused here... One single mod gets leaked, and you guys start saying hes leaking everything... How is one mod, EVERYTHING?

Ok so obviously he had some damn good reasons of leaking it, and it wasent just for attention etc.. From what i heard Htmlogod was constantly bashing his Mother (Who has passed away) and he couldnt take the insults much longer... He warned htmlogod that he was getting furious with that issue, cause it had nothing to do with the mod he was helping on...

Ok show me proof that deadaim has it, then ill belive this whole sub test thing.. Banning someone that has nothing to do with Renalert, is just simply childish.. If you guys know he doesnt have it, why are you banning him? You think hes gonna leak anything he gets his hands on, or do you really think if someone were to get you aggravated enough, you would just get really mad, and do something about it..

Obviously the leaking wasent the best choice, but he knows what mistakes he made, and appoligized to it..

Im not taking anyones side here, but until i see some proof that he somehow had this sub test, then ill belive you guys.. otherwise i think its just an attack on deadaim cause of the leaking of the sw mod.. You tell me. im not the one to judge.

Look, I don't know if he has it or not, I'm just saying that Aircraftkiller thinks he does, and that I encourage Deadaim to talk to him and get this all cleared up, because this may have negative repercussions for people that have absolutely nothing to do with any of this. If you do have it, again, please confess how you got it. If you don't, please talk to Aircraftkiller and try to get this mess cleared up.

Yes why the hell would deadaim have the Renalert subtest in the first place? If he had it and was gonna leak it dont you tthink he would have. What does banning him on the renalert forums accomplish by this , if he had it then that wouldnt have stoped him from leaking the Sub test.

Blazea58From what i heard Htmlgod was constantly bashing his Mother (Who has passed away) and he couldnt take the insults much longer... He warned htmlgod that he was getting furious with that issue, cause it had nothing to do with the mod he was helping on...

none of this makes any sence what so ever.. The thing is, there is not one point of VALID proof that Deadaim had it... Im sure if they had pictures, its just as easy for anyone on the team to go on a lan game and use what ever name they pleased of..

I really do think this is more of a personal attack to deadaim because of the first mistake he made..

You cant go on banning people with no proof, how the hell would that work in the court of law?? it

simply doesn't. And to top it off, no one on the renalert team is coming forward and saying they gave it to deadaim either, so that makes this even more suspicious..

Also seems like this is not being talked about at the renalert forums, because well for one you banned the guy, before he even got to speak, and for 2 you guys don't even show proof to where he got it etc.

You apparently aren't trying to get into contact with Aircraftkiller, you can get with him on AIM, by PM, by e-mail, etc., but you don't.

Yes, we know which team member leaked it to him, I think it's pretty obvious who did it. He, when told that someone had leaked it out, admitted to giving it out to deadaim.

phss i dont know what the deal here. Blazea58 support deadaim and i know blazea58 is a guy wich know what he is doing. The leak of SW mod wasnt leaked for no purpose.. Deadaim and Blazea58 told it.. HtmlGod was doing shit about deadaim dead mother. he asked to stop and Htmlgod didnt stopped. Deadaim even told Htmlgod that if he dont stop he would leak beta... so he did it.

The point about sub thingy is worthless too... no body has a real proof that show deadaim has it. Btw if deadaim was the "peice of shit" that most of people think about it and having the sub test i think he would already posted it like he did for the SW mod. the problem is the SW mod has a valid reason... and he even told it to the creator of that mod that we woudl leak it. Do Deadaim has the sub test or not? this case is different, hell ya different.

For the SW case almost everyone on the team was aware of the leak and who did it and even the name of the guy who gave the mod to Deadaim was annonced.

On the Ra sub test the guy who said he leaked it to deadaim never been told. btw if that guy leaked it to Deadaim why would Deadaim be bashed like that?thats make no sense. Ghost guy telling i leaked the Sub test to deadaim does not make any sense.

Yea Ren alert team say thats is a team member that gave it to deadaim.. but how do you that guy dont lie?

its funny how a team member admited that he give the test to him? the most funny is to blame Deadaim for leaking something that we are not 100% he has.. and even more hilarous we blame deadaim for leaking eveything he get for not reason!!! :rolleyes:

Maybe there is someone else in that \$hit is lying to hell just because he dont like deadaim.. sort of revenge from SW leaking. that guy was a friend of Htmlgod and did something to revenge him.

i am not pointing someone or telling Htmlgod have something to do about that.. i am just telling there is a missing peice of the puzzle an important peice is missing. People blame someone and arent sure at 100% before blaming. Yea Ack did say that (he has it), what else if he was lying? maybe his not lying, maybe someone else is lying to Ack for pure revenge or just to protect himself from a bad move he did: by giving the link of sub test to his friend... Ack or any admin saw the "unalowed" transfert and asked him what was that about and the "leaker" said he gave it to deadaim....

There is too much possibility to say " yea i am pretty sure he has it.. let attach him over a pile of wood and burn him!!"

Since nobody else will, and the name of the staff member who suposably gave the sub test to me has not been revield yet.... Hmmm I wonder why???? Maybe because there is nobody who gave it to me, becuase I do not have it. And you wont mention the other persons name who suposably has it, because there is no other person. Now Aprime, I respect your opinion..... o wait, no i dont. You opinion doesnt matter to me. So how about you leave your business somewhere else. Blazea58constantly bashing his Mother (Who has passed away) and he couldnt take the insults

much longer

Its true that I told a 'yo moma' joke or two. Afterwards deadaim told me his mother had passed away when he was still young, and I appologized profusely. However, all this occured after Deadaim00 leaked the SWMOD internal beta, it could not have been a reason for him releasing it. It is also true that I insulted deadaim - it angered me how he managed to get our beta but never actually do any quality work.

And about the proof -

Deadaim sent me this picture a day or two ago. He was bragging about having the internal beta that ACK made for the submarine video. I wish I kept logs, but I don't. I believe his exact words were "Aren't you jealous" or something along those lines. I immediately handed the picture over to ACK, because I wouldn't want Deadaim to do to renalert what he tried to do to SWMOD. ACK established that an unnamed member of the Renalert team had downloaded the submarine test, and handed it over to another unnamed community member. This second community member, who is not on the renalert team, happens to be very good friends with Deadaim. That's pretty damning evidence in my opinion.

Furthermore, when I later confronted him about where he got this picture (since he claimed not to actually have the beta once he found out he was in trouble), Deadaim claimed that he had modified a screen from the movie ACK made, which is an obvious lie, because ACK's movie is at nowhere near that high resolution.

And I did not brag about having it, becuase I infact to not have it. And you still made fun of my mother hafter you had found out she had passed away. Why would anyone try to fake a scandal of you having an internal beta. Give it up, we've already confirmed it with the person who gave it to you.

And the distinction the 'your mother' jokes being AFTER you released our beta is this: you no longer have any even remotely valid reason for your actions.

Personally, I'd just like to know why your story keeps changing. First you imply that you have the renalert submarine beta, and you even send me a picture. Then you say that no, you made the picture by photoshopping a screenshot of ACK's video (obviously untrue). Now you insist that you were framed, someone used your name, played multiplayer Lan, and took that picture. Why, then, was the picture in your possession? After all, you sent it to me, not the other way around.

I appreciate the layout that you guys did for us, but that doesn't change the fact that Deadaim00 is traitorous, and that you failed to come through on any of the change requests that I made for the site itself.

I don't know what more proof you could want. Here is a brief outline of the events over the last few days:

1. Deadaim00 sent me an in-game screenshot of the internal beta, and implied that he had the beta featuring the submarine and map.
2. I talked to ACK, who immediately becomes suspicious of one of his team members having leaked the beta.
3. Deadaim changes his story (for the first time) about the origin of the picture - he says that he made it from a modified screenshot of ACK's movie of the submarine.
4. ACK confirms that the team member he previously suspected of leaking the beta did, the person confesses immediately, and says that he gave it to a known friend of Deadaim00's.
5. Deadaim00 is banned from the Renalert forums.
6. Deadaim00 comes here, starts this thread, and again (second time) changes his story about the origin of the picture - now he says that someone took the picture while using his name in a 1 player lan. However, that doesn't explain the fact that Deadaim00 sent the picture to me - unless, of course, he is framing himself....

In any case, Deadaim00 is obviously up to something, as always. He gave three different testimonies about the origin of the in-game screenshot that he sent me. He has known connections with the person to whom the submarine beta was leaked. He is known to be mischevious, and to brown-nose his way into internal betas and such.

And I also find it funny that FynexFox, one of the very few supporters of Deadaim, now insists that we stop discussing the topic in public...

He only says that becuae he doesnt want this community to turn to more shit than it is. And I did not send you that picture, and you cannot prove to me that I did. I just would like to be unban from the RenAlert forums, thats all. Especially since I didnt do anything wrong. I dont have the damn sub test.

Time to pull out the logs. Since you can't confess, even though you are totally guilty and proven wrong, the logs will complete this and you won't have any other shit to say. Go ahead, flame me, like a sorry ass.

How the fuck can you even say taht. How the hell is it evidence! Do you people not even read my

posts. You know how easy it would be for someone to go into a LAN game and make one of thoes? Htmlogod hates me, what makes you think its going to stop him from framing me and ruining my renegade life? It would be so easy to fake a picture like that. Very easy indeed.

Here are a few interesting logs from AIM that I happened to save. I am programinbastad, and Deadaim00 is ATLjoker541 and he later uses insanelildil, since I blocked ATLjoker541. The logs speak for themselves. I highlighted a few key quotes.

programinbastad: you knew you weren't supposed to have the alpha yesterday
programinbastad: or whenever it was
programinbastad: and you didn't ask before downloading, you asked before playing in my server
ATLjoker541: well, i obviously didnt know i wasnt suppose to have it
programinbastad: you should have
ATLjoker541: well im sorry
programinbastad: you don't seem sorry
programinbastad: you seem conniving
ATLjoker541: con whating?
programinbastad: conninving, plotting, insidious
ATLjoker541: i only know 1 of thoes words
ATLjoker541: lol
programinbastad: you want the alphas real bad, but you don't seem to want to make us any decent maps
ATLjoker541: thats not true
programinbastad: I trust you less than I trust most of our beta testers
ATLjoker541: i could give a damn about the alphas
programinbastad: no, you begged me for months
ATLjoker541: ill delete it right now
ATLjoker541: if you want
ATLjoker541: hell no i didnt
programinbastad: have you forgotten already?
ATLjoker541: i asked once
ATLjoker541: and you said no

programinbastad: you asked me liek every day for at least a month
ATLjoker541: because you couldnt trust me yet, and i agreed with you
ATLjoker541: no i did not
programinbastad: yes, you definitely did
ATLjoker541: i have all my aim convos saved
programinbastad: don't sit here and deny it
ATLjoker541: and i can prove i did not
programinbastad: go back and look for yourself
programinbastad: you asked dozens of times
programinbastad: and then you go and download this one, knowing you weren't supposed to
programinbastad: and you are still yet to produce an even mediocre map
programinbastad: but its gets worse, you're not useful as a beta tester either
ATLjoker541: lol, how is anyone not usefull as a beta tester?
programinbastad: you never played when I hosted, you never pointed out any errors that weren't already known
programinbastad: so far you've only come off as a n00b who wants to play our alphas
programinbastad: the least you could do is use the default LE instead of one for a competitor mod
ATLjoker541: why does it matter
programinbastad: because its annoying to have to use fucking RA to play a map that is for our mod
programinbastad: not that it is going in our mod, because, like I said, it is a piece of shit
ATLjoker541: ok, and im still not sure why its annoying
ATLjoker541: but i guess its your own personal preference
programinbastad: my preference is that you show your value and make somethnig we can use

programinbastad: I think the fact that is most disparaging in your case is that you have nothing to show for any respectably good map, even now 4 days after missing the ultimatum deadline that I set for you
programinbastad: which, if anything, solidifies the growing fear in my mind that you are a useless creten who exists solely to mooch internal alphas
ATLjoker541: jesus christ dude, let that alpha thing go
ATLjoker541: i dont care about it
ATLjoker541: infact, ill delete it right fucking now
ATLjoker541: if it will make you shut up
...
programinbastad: am I just supposed to forget?
ATLjoker541: all i needed to do
ATLjoker541: was ask someone
ATLjoker541: or hack it myself
ATLjoker541: and i would have gotten it
ATLjoker541: so dont say thats all i want
programinbastad: well then I wish you good luck in getting the next alpha
programinbastad: because you're fucking off the team
programinbastad: I don't want to ever hear from you again, got that?

This next segment was a day or two later. I was away, and Deadaim00 came on with a different name (one which I had not blocked), insanelildil. Here is what he had to say:

insanelildil: I didnt wanna fucking do this, but now i guess since you dont want people to see this alpha, its going to have to be leaked ALL OVER THE RENEGADE COMMUNITY

insanelildil: along with your first one

insanelildil: so, hmmm where to put it first

programinbastad: you said you were going to delete it

insanelildil: ya, well i would have, but you never told me to

programinbastad: the least you could do is follow through on your word for once in your life

insanelildil: i asked you

insanelildil: i will delete it if it will make you shut up

programinbastad: it will

insanelildil: and you didnt say anything about that

programinbastad: I was shut up

insanelildil: ya, by blocking me

insanelildil: i didnt want you to bloc kme

insanelildil: i told you that in the beginning

insanelildil: if i get kicked off the team for some reason

insanelildil: the most we could do is still talk

programinbastad: I don't want to talk to someone who threatens to hack our server for the mod, release it to the public, says I, a male, am having my period, etc

insanelildil: well, you were getting all pissy about it

insanelildil: and i wasnt doing anything

insanelildil: dont even use that against me

programinbastad: yeah, you'd already done your damage

insanelildil: cuz i know what your goign to say

programinbastad: even outside of you getting the alphas, you still haven't done jack fucking shit

insanelildil: told ya, i knew what you were going to say

programinbastad: and now you turn out to be some punk kid who thinks he can hack, and wants to release an internal alpha to the public

insanelildil: god damnit

insanelildil: i know i can hack

insanelildil: i have proved it before

insanelildil: and i proolly wont release it

programinbastad: hacking with some dumb program doesn't count as hacking

insanelildil: well, not proved it to you

insanelildil: but i have done it

insanelildil: there are other ways of hacking

insanelildil: thats just the way i choose

insanelildil: the program works, and thats what i will do

insanelildil: you still need alot of knowlage to do it

programinbastad: I will not be blackmailed into keeping you on this team

insanelildil: i dont want to be on the team

programinbastad: you can try to earn your trust back, or you can earn the scorn of the community by illegally releasing an internal alpha

insanelildil: and im not blackmailing you

programinbastad: then delete the fucking mod

insanelildil: fine

insanelildil: its gone

insanelildil: in the recycle bin
insanelildil: and im about to hit empty
programinbastad: hit empty
insanelildil: *hears sound of crunching papers*
insanelildil: can you please unblock me now?
insanelildil: i dont like this name
insanelildil: it was my first name ever
programinbastad: why should I unblock you
programinbastad: you just threatened to hack our site, release the mod to the public, and you have forever lost my faith and trust
insanelildil: ok, then why did you just say if i plan on earning my trust back?
programinbastad: I don't think you do, which is why I don't intend to unblock you
insanelildil: wait, you dont think i do what
programinbastad: intend to earn my trust
insanelildil: well i do, i guess i cant
insanelildil: so i guess, i just should not try, but it would make me happy
insanelildil: i never wanted to fight in the first place
insanelildil: your the one who did all the fighting
insanelildil: so now your ignoring me?
insanelildil: what the hell
insanelildil: talk to me damnit!

As you have read above, he promised me that he would delete the beta from his computer, as a means of ensuring that he would not leak it, which had been my suspicion for several days.

This next one was another few days later. We started talking about something else, and I said that yes, I kind of hated him. When I returned from being 'brb,' he said:

ATLjoker541: your gonna hate me even more later tonight
programinbastad: why is that
ATLjoker541: youll see
programinbastad: don't bullshit me
programinbastad: don't tug my chain on some powerplay bullshit
programinbastad: tell me what the fuck you're up to
ATLjoker541: nope
programinbastad: you said you deleted the mod
ATLjoker541: ya
ATLjoker541: and i did
programinbastad: both?
ATLjoker541: no
ATLjoker541: well
ATLjoker541: yes andn o
ATLjoker541: yes off of this computer
ATLjoker541: but not off the others
ATLjoker541: so i still have it
ATLjoker541: but tahts not what im up to
programinbastad: is that what you're doing, releasing our alpha?

ATLjoker541: no
programinbastad: what, then
ATLjoker541: i said youll see
programinbastad: well you can make yourself look like a disloyal fucktard if you want, I guess thats your choice
programinbastad: I already knew you were, but I did oyu the favor of not publicly announcing it

This was the night before Deadaim00 released the alpha. He announced that he had no intention of releasing the internal beta at the start of the conversation.

ATLjoker541: hi
programinbastad: hi
ATLjoker541: I officially decided not to do what i was going to do
ATLjoker541: ever

*he is referring to publicly leaking the beta, which he had threatened to do, but after cooling off he temporarily changed his mind.

ATLjoker541: unless you piss me off alot
programinbastad: come on
ATLjoker541: but its gotta be like
ATLjoker541: killing my family
ATLjoker541: or something
I removed a few lines where I helped him with some LE questions he had.
ATLjoker541: well to tell you the truth, i was never going to do it anyway
ATLjoker541: becaus i thought about it
ATLjoker541: and i think if you did what i was going to do
ATLjoker541: to nme
ATLjoker541: I would personally come to your house and feed your family to my dogs
ATLjoker541: lol
ATLjoker541: well here it goes
ATLjoker541: I was going to leak the mod, ALL over the renegade forums, renstation forums, all the big website forums, n00bstories, and more, but thats not all. I wal also going to hack into your computer, and delete every file you ever made for the mod, delete the website and everything. And just for fun, i was going to make almost every file on your computer a porn pic
ATLjoker541: wait im not done
ATLjoker541: dont respond yet
ATLjoker541: *the porn pictures idea was not my idea, im not perverted like that, it was my bros*
But after i was done with that, i was going to leak it some more, now i mind you, i dont have the mod on this computer anymore, but i do have friends who have it, so i could jsut as easily gotten it from them

*these were deadaim00's plans, which he claimed to have abandoned the night before he released the beta. In the end he followed through on the first part - uploading the beta to his server and linking to it in every forum he could find.

ATLjoker541: but then i decided not to, because thats very mean
ATLjoker541: k you can respond now

programinbastad: you handed it out to friends?

ATLjoker541: no

ATLjoker541: i did not

ATLjoker541: i dont know where they got it

ATLjoker541: to tell you the truth

ATLjoker541: i will ask him

This was a little bit later that night. This time he is trying to blackmail me into not blocking him, and not kicking him off the team. He points out what happened to reborn when it was leaked - it looked bad and lost a lot of support.

ATLjoker541: i didnt need to join the team to get the alpha

ATLjoker541: i said

programinbastad: bottom line is that you are a dumbfuck, a stupid kid, and really annoying

ATLjoker541: well

ATLjoker541: if you see it that way

ATLjoker541: This mod is looking like it wants to meet other people, and im not necisarily sure if you want that now do you? You dont want to see what 2 years of bullshit work has done now do you? Im pretty sure you dont. Since the mod does kinda suck some major balls.

programinbastad: post whatever you want, leak the alpha all over the web, I really don't care

ATLjoker541: ok

programinbastad: we have the support of the community

ATLjoker541: lol

ATLjoker541: o you wont

ATLjoker541: you saw what happened to reborn when the betas got leaked

programinbastad: I do not feel threatened by you

ATLjoker541: dont you even know what happened to reborn

ATLjoker541: They got flamed so fucking bad

programinbastad: reborn had a shabby team, and they fell apart when you leaked their alpha

ATLjoker541: it was unbelievable

programinbastad: I'm not really worried

ATLjoker541: I DID NOT LEAK THIER ALPHA!

programinbastad: yes you d id

ATLjoker541: Dark did

ATLjoker541: one of the testers

ATLjoker541: thats bullshit

ATLjoker541: i did not

...

programinbastad: I asked in irc about you, everyone confirmed that you were a piece of shit, and ack volunteered the information that it was you who leaked the reborn alpha

ATLjoker541: lol

ATLjoker541: well i dont care what people think

ATLjoker541: because it wasnt me

programinbastad: regardless of whether you did or didn't - it doesn't really matter to me - I am blocking you now

ATLjoker541: and wouldnt ACK be happy about that?

programinbastad: it doesn't matter whether he would be happy

programinbastad: because it leaves you still as the turncoat whore that I suspected you were

programinbastad: goodbye now
ATLjoker541: k
ATLjoker541 signed off at 10:22:32 PM.

This was the last communication that we had before he attempted to publicly release the beta. As you have read, he promised to delete the beta from his computer, as a sign of good will. In the end, though, he released it to the public, simply because I made him angry with my insulting him about his lack of productivity.[/i]

Deadaim00: I am reading your posts perfectly fine.

How about the fact that no one is going to go in LAN and frame you for no fucking reason, with this beta, including when NOBODY HAS IT EXCEPT YOU AND THE RENALERT TEAM, stop pointing the finger. Also, if he took it from the movie, THE MOVIE DOESN'T EVEN HAVE THAT FUCKING RESOLUTION, HOW CAN IT BE POSSIBLE TO FRAME YOU IN THAT RESOLUTION?

Id like to know how old we all are..because this sounds like a playtime argument in the sandpit.

Now Deadaim00 seamt to have his motives for actually leaking the Shitwarz mod, that's down fucking what, its worthless anyway..not even worth leaking or personally having.

I know how Renalert has that clique don't worry, they cannot accept something bad said to biased so I will not go with saying yes or not he has the sub alpha.

HTMLGOD now has quite many foe's, and well I'm one of them I really hate him, he will pick you up, drop you and kick you while your down which is not like any Man would do so I don't believe swizzle that comes out of him.

What you all need to do is stop posting here and just forget it, if deadaim00 really believes he doesn't have it, then that's all that matters that he doesn't have it, and about visiting their forums, deadaim00 that doesn't really matter just go to another computer such as school, college, internet café.

This is a deal made bigger than it really is so just leave it.

After reading those logs Deadaim I have lost all will to try to defend you. I see alot of points where you should have just shut up and been on your way , but as soon as it seems you were starting to redeem yourself (somewhat) you go around and say you were gonna hack his comp and replace everything with porn pictures.

The only thing I dont understand is why would someone give you the sub beta right after you leaked the SWmod. Anyways im done defending you. You brought this apon yourself by getting mixed up with the Releasing of the reborn beta , Actually realeasing the SWmod then again getting mixed up with some alpha tests of the Ren Alert mod.

Are you just a idiot or are you trying to be hated by everyone here? My final words , dude Just stay FAR away from all mod forums. You are just getting in deeper in than you can dig yourself out of.

Genocide, don't stir something up. Seriously. If you're going to jump in and talk shit about SWMOD, then what about Fist of Ass? About 90% of the things you are planning to do in it are not possible, and even if some of them turn out they are, they aren't even funny. One of our team members gave the alpha to Deadaim00 because of mis-understanding, he thought he was meant to have it since he was a team member. Also, if you know that much about SWMOD, then you possibly downloaded the leaked alpha? How un-original.

Do you know what's unfunny about this? It's the second Renegade Alert "leak issue" since the release of version 0.992 and even unfunnier, it's always a new team member who does it.

The evidences are there, your pathetic defense did not do anything to help your case, your past actions did not either.

I just still personally dont see anything of how it leads up to Deadaim00 getting the sub test.. First off, i do know for sure, that the picture htlmgod has is fake, because for one Deadaim always uses Deadaim00 on wol..

Im sure he really isnt that stupid to actually show a screenshot, while hiding his name by just taking out the 0's, that would just be obviously stupid..

Now from what i can see though, the logs show nothing leading up to the sub test, what he had against Htlmgod, is not any of our problems, and i can also see that htlmgod just wanted to push it further by unblocking him etc.

Still the sub test has nothing to do with that huge page of logs that are shown..
And the person who "so called gave it to deadaim wont even be spoken of"

If someone on your team released it to him, what is there to hide then? Everyone knows someone gave it to him (supposefly) So who was it then?

Oh ya its that invisible person with no name oh yes, thats who gave it to him....

If you want to play games and stuff, im sure its not that hard to show htmlgod playing the sub test

OMGMOMGGOMGOGM!!!!1!!11!!1!!1!!1!!! Htmlgod has the leaked sub test now, who will be next.

Do you think Aircraftkiller is lying? Blazea? He's not going to list the name of the team member for multiple reasons, including the fact that it will start a big flame war/arguement.

Anyone who doesn't believe the MOST POSSIBLE EVIDENCE YOU CAN GET is a moron.

Also, Blazea, you didn't use the right font when you edited that picture, and it's not even the right size. And again, stop pointing the finger.

So.. someone on the RA team leaks a RA alpha to another person on the RA team.. and everyone is all pissed at one, but rallying around to hide the identity of the other? Doesn't make a whole lot of sense to me.. You don't want to "start a flame war" so you aren't going to say who gave deadaim the alpha, but you want to pound deadaim in to the ground for taking it from him?

Come on deadaim, I can't bare the suspense.. who is the person they won't name..

Again, that picture proves nothing, thoes logs prove nothing. I dont have the sub test, so get over it. The picture could have been taken in a LAN game easily. There are many people who could frame me, such as htmlgod. He hates me, and has a semi good reason to frame me. And although blazea58's picture isnt perfect, he is just showing how easily it can be altered, and how easily it can be faked. :rolleyes:

Learn to backup what you say.

The logs were meant to prove how much of a dumbfuck you are, and to prove that you leaked the alpha all over the community because you were fired, not because of a "Yo moma" joke. Which also proves that you are lying, even to your friends.

AGAIN, if that picture were someone framing you, IT WOULD BE A RENALERT TEAM MEMBER, AND NONE OF THEM WILL DO THAT FOR NO REASON. THERE IS NO PROOF THAT ANYBODY OUTSIDE OF RENALERT HAS IT EXCEPT YOU AND THE PERSON WHO GAVE IT TO YOU.

It's over, Aircraftkiller ISN'T going to unban you from the RenAlert forums. He has seen his own proof, by the team member actually confessing.

Several people's word, a confession naming you, evidence (rather or not it was faked), and similar past incidents vs. your word. Hmmm...

PiMuRhoSo surely the attention that deadaim00 has been getting should instead be lavished on the "team member" that leaked it in the first place?

Disputes beteen RA team members stay in private, where they belong.

deadaim00Again, that picture proves nothing, thoes logs prove nothing.

My God you're an arrogant little child. We could show you a video of you playing ANAL JUGGERNAUGHT with some old man and you'd still deny it.

The fact remains, the Banhammer has spoken.
