We need this in the United States!

Sounds like that Dial-a-Condom thing in Sweden.

If you ever feel embarassed for buying something at a till, no matter what...

"Can I have a bag for that, please?".

Makes me feel better.

Aimbotyou get embarrassed buying condoms? the only time its embarrassing is when the woman at the till beeps "4 strawberry flavoured condoms" across the entire shop, THATS embarassing I don't get embarrassed, I've never had to do it, but many people don't bother using them because they are embarrassed to be seen buying them.

If buying condoms in a shop is embarrassing, isn't this method about 100x worse?

There wouldn't be a need for a "condom mobile" if they tried teaching some set standard of morality.

From the article,

Quote:Although the campaign is targeted at young people, Carl Oswald said anyone was welcome to call the condom express hotline.

"We won't look at someone's age and turn around! When it comes to sex, you're only as old as you feel."

It looks like 15 year olds will finally be able to legally have sex.

..as long as they "feel" older.

Since when was it illegal for 15 year olds to have sex again? I've never heard about that...There's something called parrents you have to watch out for sometimes but it's not illegal last time I checked...For fucks sake there's posters in my school (Junior Highschool by the way) that encourages everyone (the guys at least) to use condoms, so it can't be very illegal
