I just re-installed my game and when I try and get the update it has a Download Error which says: "Download File not found." What does this means and how can i fix it?

Try using the WS FTP:

ftp://ftp.westwood.com/pub/renegade/updates/

If you're looking for the 1037 English update, here's a direct link:

ftp://ftp.westwood.com/pub/renegade/updates/Renegade_1037_English.exe
