A couple of months ago, I found myself disconnected from the Internet, without TV, nor any interesting books to read. So one day I found myself perusing through my Red Alert manual, and I noticed odd symbols on the bottom of the pages.

Those symbols are actually Morse code, and if you decode them, they reveal an interesting part of Red Alert.

This should be a breeze for those who have served in the military (I'm assumng you had to learn Morse) or those who already know Morse code.

And if you don't know Morse, find a Morse code decode sheet. The Red Alert manual is a very entertainng way to learn it.

.... _ ..._ . .._ .._ _!
