Also, does anybody have high-res scans of the renders from TD manual?

well, seaman, i have time right now, and a scanner, and the Dos manual, but, what format do you want them in? jpegs? or do you want the photoshop files, so you can cut and trim yourself? i dunno, i'll start scanning them as jpegs, it will take awhile, i might do the units first, then the buildings a bit later... like 3 days or so.

oh well, time to plug in the scanner.

Seaman, its all done, from page 27 to page 52. that includes all buildings, and infantry/vechs. also a table of buildings and units, and what they cost, what armour, and what speeds...

but all up, its 21.4Mb, and zipped 21.1mb so yeah shall i send it to you somehow? i might send like 5 pics at a time, in like 4 or so emails. and i cant post them all up here, photobucket will not allow that many pictures.

but anyway, the pictures are directly form the manual, high quality, and colour, but seeming the text is black and white, it wont really matter :rolleyes:

well post here, so i know how to send them to you...

EDIT: no i cant, i would only be able to upload a few pics, because maximum size is 1.2mb, and most of the pics are about 1.4...so yeah, unless i change them to bitmaps but there bigger right? i dunno...

If you copied the CD and tried to sell the copies (or any of their contents) instead of the original, it would be illegal.

Eg.

1. John Doe sells his Elvis music collection =legal.

2. John Doe makes copies of his Elvis music collection and sells the copies =illegal.

That's irrespective of the sale, considering you sold intellectual property PRIOR to the sale of the CD.

Ask ol' Frank if he minds you selling his music.

Frank was paid, or continues to be paid a portion of the sale of each Renegade CD sold.

You had no mention of asking his permission to sell this music. This equates to the current disagreement over Napster like music ripoffs.

That still doesn't excuse SeaMan from trying to get all of it for free, which is surely a worse offense as it violates every legitimate copyright law known to man.

I don't plan on selling this stuff, I enjoy the music too much. I'm not giving it away so he can freeload off it, either. Go buy a copy or earn one like I did.

I also got the Renegade Soundtrack only mine has 15 songs on it. Strange thing is on the back it shows the same list with 14 songs ACK posted. Now normally the 15'th songs is an extra bonus track in this case. But I'm pretty sure song 15 is In Line of Fire. I'm not sure but one song has been added in the middle of the list.

I got the soundtrack at a very well known, CD-store in the netherlands where you got the soundtrack extra. Note: it's one of the most expensive cd-stores, but hey I wanted my soundtrack.
