This is what I tried to post on there forums.. but I couldn't register, there website was all messed up.

Wow.. zoogler.. I never thought you had it in ya.

I was playing in a000000fud server on Renegade a few moments ago, I had MVP *4, and I was playing a 2v1 and winning. Then one of the players left and a moment after that zoogler joins. I rush the base with an APC/ion, I get out by the side of the Hand of Nod and start to ion when I see zoogler (stealth black hand) so I hop back in my APC and run him over. I proceed to lay the ion, then I hop back in my APC. I see zoogler coming out of the Nod powerplant with and engineer so I kill him. I'm guessing he thought I had bighead.. since I practicy raped his engineer. I'd like my ban to be unlifted from the server please.

oh and btw you should be able to find whatever you need at <http://www.fudonline.com>. the forums are very new though; i'm not sure if they're really working yet (don't worry about it though, i'll make sure the rest of the clan sees your post here.)

FUD bans people for no reason. We shouldn't expect more from them. They pay for the server, so they reserve the right to be huge dicks about moderating it.

I was banned for holding a FUD member's mammoth tank for him so he could disarm a beacon without the SBH running around stealing it. But instead he stopped disarming the beacon, got back in the tank and spammed "Get out of the vehicle" while the nuke slammed down on our WF and lost us the map.

But I do stand by the FUD's right to kickban and run their server how they see fit.

The FUD's methods of using their servers are highly unorthodox, but still it is fun to play in their servers. Believe it or not, they are highly skilled players, who use their server not just to get ladder points and whatnot, but to have fun, eem if it means healing the enemy just to see the reaction given by the opposing teammates.

FUD has my respect, simply because they do what they please, and don't care about what other people say about them.

15. The lunchbox clause: You can be kicked for prior offenses if the admins see fit. In fact, this is an almost certain prospect. The moral of this story is that we have a long memory and an itchy ban finger.

Subject: Question..

6. Besides the above offenses, you may be banned without warning at any time so that a member of FUD can get on the server. Yes, they take priority over you. If this happens, nothing personal, and the ban list is cleared frequently so you'll be able to get back on in a day or so. There is a definite criteria we go through to remove someone so we can join our server. You can prevent being a victim by not being the lowest scorer, especially if you've been in the game a long time. We assume low score + high play time = ban. Again, this is not personal, you just happen to be the least contributing member at the time someone who kicks ass wants to get in on the game.

spoonyratl accept. FUD won't. Says it all, really... :rolleyes:

Actually, all it says is that FUD doesn't play clan games. If we selectively accepted and declined challenges, that might say we thought we would lose the games that we refused to play. Since we simply don't play clan games against anyone, though, all it says is that we don't care about proving our skills to anyone. We'd rather just have fun and enjoy the game than waste our time proving ourselves to people whose opinions we don't care about anyway.

You may think we're pretty good. You may think we suck. Either way, we really don't give a damn, and that's why we won't play you.

(Also, who the hell plays 2v2? That's only slightly less pathetic & boring than 1v1. To each his own, I guess. But I digress...)

Spoony, you and the rest of your clannies really have no way of knowing whether or not we're any good, because we ban you guys from every server we run. (And no, not because "you're too good" or anything like that. More like because we simply don't like you.) Even if you've played a couple games with us, I'm certain you've not played enough games to actually know if we're any good.

I think the only FUD player I have even the vaguest respect for as a player is Pfs70, simply because he's the only one who's ever actually accepted a challenge (Instead of the rest of FUD who prefer to pat each other on the backs and think you're elite). Granted me and Prox got basekill on them 2v4 on Field in about fifteen minutes and they said we had "autoshot", whatever THAT is, then me and Ice won by basekill on hourglass 2v2 and they said we had MRLS damage hacks, lol. Perhaps if I cared about my rank among the pecking order of fucktards here I might be inclined to play a game against one of their champions, but since I don't I won't. Frankly, this is a source of amusement to me. Spending time proving that I am better than others at amusing myself seems rather frivolous and I know my time is worth more than that.

Until you can somehow make it worth my while to dedicate a certain time and place for me to amuse myself, I think I'd rather go get drunk or jerk it or something as that'll be far more amusing and I can do it any time.

Notice the glaring contradiction here? This is from FUD, who claim to be the "best clan ever" and the "only renegade players worth playing against"? I never made such a claim about MY clan :rolleyes:

Aside from anyone else, why does this have to be about "proving something"? Wasn't me that brought that up, it was you. I wanted a game, not a chance to prove what I'm pretty sure everyone knows already

Finally, I'm a "champion" here? I kinda doubt that. Not on CW either, since a fair few of them are quite a bit better than me. You want a CW "champion", talk to Uded, Homey or Clearshot.

The best clanwars.cc players. Not just my clan (Although I could probably take anyone in my clan 1v1 tankfighting except homey, flama and maybe soul) I don't say CE is the best, it just isn't true while BR and FE are around.

As for Confuzor -- I stand by the fact that clan FUD has never banned a single person for "beating us". The very premise of that accusation is against our own mores. We don't kick people that kill us, we get them back. And suffice to say, unless they leave the game, we always do.

Oh, you mean when I was just sitting there, not even moving, shooting your arty with a pistol while I waited for more people to join?

As I've said MANY times before, I don't play any of that 1v1 shit. So I wanted to just shoot at each other with infantry until the server filled up a bit. But since you insisted on being a jackass instead, I had to ban you.

And before you start whining about this again, think about this: it was MY server, so if I say "infantry only til the server fills up" then I had better not find you driving around in an artillery.

You may think I'm the one who didn't have the balls to fight because I banned you, but I say you're the one who didn't have the balls to fight because you wouldn't use infantry.

My server, so I make the rules. Deal with it. And then go fuck yourself for all I care.

That's the whole point though. I didn't want to "get another game going." In my opinion, killing bases 1v1 is a boring waste of time. I'd rather be playing minesweeper than killing someone's base 1v1.

I wanted to just have infantry wars until more people joined. And I DID actually tell you that. You didn't say "no," but you did ignore me and continue to use your arty. (Maybe you ignored me because you didn't know I was the host, but ignorance is no excuse.)

I'd still like to know what exactly I'm wrong about here, because from the way I see it, you're the only one here in the wrong.

Your case STILL is logically flawed, you STILL have no evidence for your case outside your word (which I personally find questionable at best, after dealing with many of your kin at one point or another), and you STILL don't know what irony is.

Why don't you stop beating around the bush and concluding that we're in the wrong without some credible evidence, m'kay? Remember, it's your word against Mahkra's, so if you're going to pertain and conclude with that, well, then you're more of an idiot than I've given you credit for. Also don't forget that the whole "WTF FUD BANZ 4 NO RESON" is nothing but rumour given in testimony from those whiny tards who don't get a reason from us when they're removed. There is a URL in our MotD that the rules of our server can be read, and strangely enough, I would bet that a good 95% of people don't read them, and a similar percentage of them are the ones who whine about being banned after the matter of fact, too.

I'm supposed to give evidence to show Mahkra DIDN'T tell me "infantry only" during that game? How, exactly? A screenshot of every second from the point he joined until the time I was kicked? The simple fact is he said no such thing, either in public chat or PM. He says otherwise, and guess what, he's lying to you. (Or more likely, he's just even more confused than usual).

Also, I'm not seeing how my statements about tank fighting is logically flawed. If you can match

me up against someone who'll beat me 1v1 on field (THE tankskill map for 1v1's) who isn't from CW, I'll admit I was wrong in what I said. Until then, I'll just have to go by my 1v1 record. That's probably near 1000 games, of which I doubt I've lost more than twenty.

For your information, the point where you completely humiliated yourself was when you quoted me three times pointing to something I never actually said. There's a world of difference between saying I don't lose to non-CE players (CE being my clan) and not losing to non-CW players. Here's an analogy to illustrate my point.

I might say I'm taller than everyone in Belgium. And you might say "Liar! You're saying you're taller than everyone in Europe? I just found someone in Germany here who's taller!"

Of course it's impossible to get pictures of every second of every game without a video capture program running in the background or some other ridiculous means. The fact of the matter is, your only defence is that "WEL GES WAT U BAND ME CUZ I OWNT U" when in fact, is kind of humorous in principle, because you're just assuming that because you weren't given a reason until recently.

I would trust Mahkra unequivocally over you, mainly because he is an honest person. And that is from personal experience. You on the other hand, and I type this with the utmost honesty, are just another ignorant whiny "victim" of the Banhammer. And no amount of you saying "WTF HE BAND ME CUZ I OWNT HIM LOUL HE SED NUFIN" will change that.

Quote: Also, I'm not seeing how my statements about tank fighting is logically flawed. AircraftkillerArrogance, try honesty...

I bet Kirby will crack a rib reading that. Not to say that you're not honest, because I agree with you to a considerable extent, but you're awfully arrogant an awful lot of the time. Remember when I told you your MCV exhaust looked like concrete?

spoonyratNo, I said something else, I don't know how many times I've got to say this before your cerebrally challenged self can grasp it.

Oh really? Well, I'm reading what you wrote right now:

"The ONLY people I lose tank fights to are CW players... that's not presumption, it's fact"

Complete down to the lack of punctuation at the end. Deny it all you want, but it's still clearly displayed for all to see on page 3.

Yes, and for some inexplicable reason you interpreted that as "I only lose tank fights to players from my own clan", which is not the same thing at all.

It's also curious that you to pick up on my lack of interest for punctuation, too. Especially since you recently spelt "creditable" without a "t", and "percentage" as "precentage".

I've already addressed that. And I see you've conveniently chosen to disregard it. Good work. As for your punctuation, I merely stated that to show you that the quote is not misquoted or fake. Something you've denied. I've never said I type with perfect spelling or punctuation, nor will I.

spoonyratl actually don't have a problem with the way FUD run their server at all. I'm damned if I let someone tell ME how to run the servers I pay for and maintain. I extend the same courtesy to FUD.

That's kind of you.

ACK: can it. You of all people have no room to talk on that issue.

No, I don't think, I KNOW.

For being one of the biggest whiners about hypocrisy here, you're also one of the (if not THE) biggest practitioners of it.

I wasn't trying to tell them how to run their servers. They have every right to run their servers in any way they want. I just said that most of their rules are ridiculous and retarded. I'm surprised people still play it.

Hey, I joined FUD server just a moment ago because its a good server and all, and zoogler was playing.. I wonder why I got kicked this time? I think maybe, just maybe I owned his stank to many times. Did you ever ask him why he kicked me the first time? What about the second time? This time I was on my c0nfuz0r name.

I have yet to see Zoogler ban somebody because his tank was destroyed too many times. It was probably taskbot7 from RenRem.

Refer to the Lunchobox clause.

Did you ask him about before? I would assume you probably did not. I haven't spoken to Zoogler in quite a while, as he doesn't use MSN and we've had some server issues to deal with.

Actually, I'd like to take that last post back. I'm not sure if it was him who kicked me now. I just joined the server on another name and I got kicked again. I'm not sure what that's all about. But whenever I talk to zoogler he never responds to me.. Do you think you can fix it so I can get back in the server? I enjoy playing there when I'm not getting kicked

Bans are IP based. No matter what name you come on you'll be kicked.
