That SiteThe vertical line is an artefact of very bright light on the video camera's CCD. It makes the situation look like a test firing of the primary weapon of an ID4 saucer, but it's not really there.

Unfortunaltely it didn't really look like that, still cool though.

if you see a flash of light coming out of my back garden, it's me trying to recreate this *bomb*
:D:D:D

my friend owns a party supplies store cheap sparklers 4 me :D:D:D

Come to australia and join the party
