They misspelled it once or twice, that's not exactly evidence that it's "NOD" and not Nod.

Are you going to send angry e-mails to whoever wrote the text for that level?

His voice doesn't bother me, but then again I'm sort of used to a similar voice.

I guess it's different for certain people over others :rolleyes:

That also happens if you burn a teammate you randomly met in the HON...

I should not be so nervous...

But how is his english voice? In the french version he seemed to have different voices in cinematics and in-game...

maybe this is the effect of a crappy "radio conversation" effect...
