The FanMaps website is back now finally.

We are still busy with the content and stuff

Check out the download area for maps while your there

<http://www.FanMaps.net/>

hey zunnie

it would be cool if you could add some pts to the m0-m13.mix maps.

a ref and a bar/hand would be nice

maybe you guys can get together with xptek and make something like this.

Yeah, I showed him how to do it.. I'm still wondering what to do with the maps though.
