He's using Reborn as "art," man, must be one of those abstract kind of artists. You know, the ones who think a toilet bowl in the corner of a room is art.

How do you consider any of this art?

You ran around and took screenshots good for you.

Dude, he didn't do it. Why would the title be "oh please.." - don't you think it would be something like "check out my 1337 deviant art"?

I didn't do it. Some weirdo on the Planet CNC forums had it in his signature. I wouldn't even be caught dead with Reborn in my computer.

You all do realize that the person who made this gallery probably doesn't think of it as art either, don't you? I would think it was just a convenient place to post screenshots that they (for whatever reason) wanted to share with people.

It's kind of like how (this is just a random example) Crimson has pictures of kittens in her n00bstories image gallery. I highly doubt those pictures have anything to do with any Renegade n00bery.

True, but n00bstories doesn't have documentation about artistic copyright does it?

why would you want to waste an art acocunt of reborn :/ beats me. heh

narr but yes, i thought your not allowed to post up anyhting other then your own work, and your own work does not count as pressing print screen, and opening up photoshop to convert a few files.

so that might be breaching the licence.
