Does anyone have any good reference images of night vision goggles? I'm looking a pair for a 3d movie I'm making, but I can't find any good pictures to base it off of. Thanks for any help.

kicks self in head

I searched for "Night Vision Goggles" (with quotes), hoping that would bring up better results, but I can see that it didn't. Anyway, thanks for the help!

By the way, if anyone wants to see a picture of what I have so far, here it is:

I still need to texture the cloth and the skin, and refine the night vision goggles, and then move on to the rest of the body.
