Simply NO.

"SITE WILL BE BACK IN 1 WEEK WHILE WAITING, USE OUR TEMPORARY FORUMS

you need to sign up if you havent yet

we'll update this a bit also when bothered

We are in need of dounfing, please donate even few bucks and it helps"

1 Get your forums working properly, don't want to use some temporary thing.

2. We don't need to sign up, you just want us to.

3. When your bothered you will update it, just update whenever possible. . .

4. "dounfing" WTF is that word supposed to be? Why do people need to donate to your little clan site, it's just a clan, use a free server or something you don't need any money if it's just a clan, better yet set up your own little webserver at your house and then there won't be any ads. <http://www.debian.com> use that . . . pretty self explanatory. . . just need an old computer, about 6 hours, and an internet connection. You don't see everyone in these forums that has a site asking for donations now do you? Sorry to be harsh, but it's the plain and simple truth.

Anyway, I updated the main site (lol)

1. I didnt know that creepiner posted about this here

2. No more temporary forums

3. Everything is working like I wanted now. PantherD just needs to finish the designs and thats all

and for your post.. 4th, it was a stupid typo of funding, but after that I was too lazy to update it lol.. And also, do you know how hard it is to pay everything yourself when you're 15 and dont have a job?

Run all servers, site payments and such.. and I'm not from rich family, so think that..

oh and on -FM- site and donations button, why cant we have?! although FM is much bigger since its more known and it have older members who have a job, but like my clan, SW, it have members under 16 and who dont have PayPal... think that also

I'm 15 1/2, don't have a job just like you, and run my own site <http://www.egmods.com> I think I need a paid server way more than a clan does, I have about 7 gb of files on my site, and have used I have used 5gb this month, 6 last month, and 11 the month before that, I am doing this all for free. And with no ads, with the exception of the ones I put on my site so I can try and make a bit of money. So I don't really see why a clan needs to have a paid server at all. (Do you run servers on Renegade, if so NVM what I said I understand now)

I run a server... Without the server I would not need founding...

and my site is ad free also

Stop saying "founding". You clearly mean to say "funding".

Ohhh, you run a server, my bad . . . sorry, I get why your asking for money now, I didn't see that you had a server. Sorry bout that . . . So you are using a free server for your site, that's cool that

it's also ad free, very few like that. Have you taken a look at phpBB for your forums instead of Invision? I personally like phpBB much better and it is more user friendly and much more flexible and modable (LOL, it that a word?) I think you should use phpBB instead of invision, but that's your decision, just wanted to let ya know what I thought, again Sorry bout before, I didn't know you ran a server.

good spreegem

Anyway, I used phpBB last 2 months or 3 :rolleyes: and PHP-Nuke, but now I have found IPB is better, but thats my opinion.. I had problems with phpBB
