I been busy a few minutes ago to update the server2.ini's from a few servers which run these maps. Felt like sharing it, because its a hell lot of time consuming stuff having to gameover the map, note ID, update server2.ini, load nextmap, gameover... ec..

[Maps]

; This is where the data needed for the FDS to determine when a map has
; loaded/unloaded is stored. To add your own map, copy the ID of an object
; present on the map with the script "M00_BUILDING_EXPLODE_NO_DAMAGE_DAK" attached
; to it. Usually, any building controller has this script attached to it. Set
; the ID# as the key, and the name you want to use to refer to the map as the
; value.
