I made a tutorial for everyone that is having trouble with this:
http://www.dr-oblivion.com/Mod_Tut.htm

Hopefully it will be on RenHelp Soon, so everyone can find it.

Yeah i always ment to getting around to making this tut.

Make sure everyone using it to check out the new always list. I added a few files that are needed.

Mostly the other H_b, H_c animations. Needed for character animations.

edit: If you see anything called like Cowboys, or Wagons or Trains, etc in the list ignore it, its just from my mod. I think i got everything out though.
