I think it would be a good idea to add some of those non-working WOL options to the RenGuard GUI. Things like registration, rank ladder, clan registration, clan ladder, ect.....you get the idea

Its not hard to fix the problem with the WOL Clan pages etc. the hard part is finding someone who has saved all of the missing images somewhere so they can be re-hosted elsewhere.

Images won't make the ladder work...

If renevo could host the ladder, then I see no reason why RenGuard couldn't as well, except be in the GUI this time.

It would be nice if the GUI eventually had most of the same features westwood.com used to have..

Once all of these pages are fixed by someone, if they ever will be, would it be possible to change the links in the Renegade registry, so ingame it would redirect you to the fixed sites instead of the ones we have now?
