Mission 11: Stomping on Holy Ground

Green Card: Bottom of the temple in Kanes bedroom ^^

Yellow Card: North bedroom in sleeping quarters (after u been to Kanes bedroom u go back there), theres a Visceroid which drops a yellow card, must've eaten an officer lol

Red Card: You'll find this outside the cell Sydney is locked in. Basically you'll find out where Petrova is earlier, but its a Red Card locked door, this door is the escape route, not entry! So you need to go to the VERY bottom of the temple somewhere, and theres Yellow and Black striped areas on the floor, stand on them and it's a lift that takes you down, jump off near bottom and land in the Catacombs, then you work your way through and then up to where Petrova is.

I beat SP, it was cool.

Most people who play Renegade haven't even touched Single Player, probably because the first three missions suck, but the rest are awesome.
