DethHav0cA lively desktop o_O

unlike many, i have a start menu, and i use it... no sense in cluttering up a nice and tidy desktop with 500 shortcuts to things easily found with one extra click...

z310My mom will be mad at me if i have a fine chick as BG

I don't think my mom would be mad at me, lol it would just be awkward situation when im sitting there and have a half clothed chick on the background and she's like wtf.

unlike many, i have a start menu, and i use it... no sense in cluttering up a nice and tidy desktop with 500 shortcuts to things easily found with one extra click...

It's also annoying to minimize everything (even with win-key d it's annoying) to get to the desktop to open stuff.

Using startmenu and quicklaunch works very well there.
