I can identify the flower... I have some of those at our house.

How to tell if some of it is weed:

Smoke it. If you get high, it's weed.

Doesn't marijuana have seven leaves per sprig? That looks like it has six.

No, I don't know from experience... shut up.

I still don't understand why people would be ashamed if they'd ever try pot before. Marijuana is way overated in the "being bad for you" department.

Bout time we share a blunt, and laugh at these straightedges, eh cowmisfit?

You don't have to be an idiot or have corporate stocks to want pot legalized. Many normal civilians want it legalized for many different reasons from medicinal purposes to smoking it to get a high. I, personally, don't smoke weed or want it legalized, but you don't have to be an idiot to want it legalized.

Lmao you're a fucking dumbass..the reason i say that is because America's goverment and corporate problems are already to messed up with tobbaoco and such, legilizing marijuana would just pile more crap into the problem, bascially, just go smoke it illegely.

Milky, that post probably would have been better if it was in place of your last one. You actually gave a reason as to why it'd be stupid. At first you said "only an idiot would want 'pot' legalized." That kind of a post is going to spart negative reactions from the opposing side.

Marijuana should be legalized because a person has every right to fuck up his own brain on drugs as long as he doesn't go crying to the government for "help" when he realizes he doesn't have any money with which to buy more pot.

Drug addicts already cry to the government for more drug money. Of course, they don't say it's for drug money, but it's obvious that any financial aid they get goes to that purpose.

I will only tell you this: Alcohol = harddrugs, Weed = softdrugs.

And we got legal softdrugs.

I believe marijuana isn't that bad at all, as long as it's in moderation. You don't got and smoke four blunts a day. But once every couple of weeks, or even every couple of months, isn't so bad. Sure, it has negative side effects, but it also has positive ones. Not everyone gets the "adurrr I'm a moron wheeeee" type of high. A lot of people use it to let ideas flow easier (artist for example). I enjoy it because I can see things in other peoples perspectives, and I don't get mad when someone is ignorant, I just smile, and we keep discussing. And as of yet, I have not experienced ANY negative side effects. Alchol however, gives you hangovers, makes you through up, and you smell and act like a complete ass. Atleast you know what your doing when your high.

It all depends on the amount of either alcohol or marijuana you take into your body, Bigwig. Besides, most people can get high on a single joint, but not too many people can get drunk on a 12 oz. can of beer.

Regardless of whatever the "positive" effects marijuana may have on the body (marijuana used as a recreational tool, not a medical tool), it does have very negative effects, just like alcohol.

Besides, the recreational use of marijuana (and drugs in general) is little more than a sign of weakness.

Your school is preppy. Give me solid proof that your school isn't (not just a handful of kids), and I'll change my opinion.
