We are the new Big Clan in Renegade, if you havent heard of us then play on UNRULES CTF, Newmaps or Go to =[DT]= Default CTF. We are also expanding into AOW (we were an only sniper clan). If your good in AOW and want a tryout simply put =[DT]=Captain_Havoc or =[DT]=spidert3=[CL]= in your playerspy (We are a GSA clan) and go into the games they go in, tell them to watch you of course. Understand that we dont just let anyone in, you must be 1337, follow orders well ingame, and follow rules of servers

Some of the better known members:
Slickbud(was once in top 2 of the world in WOL rankings)
Spidert(Former RT-E)
Cracker(Former UN and XPL)
Slayer(Former UN under a different name)
SeniorSnipe(AA Clan)
Nodservnt(known by all of UN Clan, RT-E, and GEE)
Captain_Havoc(Former RT-E)

We are also in the process of possibly obtaining a Newmaps (40 player) and a Default map server (also 40 i believe) using the same hosting company as we used to host our CTF. The CTF has minimal lag also.

GEE actually merged with DT to become GDE... so now we have the best talent from both clans. A sniping challenge you say? How about Wednesday the 15th? Let me know what time works best for you, and if there are enough of your clan that aren't afraid to take us on. Anyways, go to our website at <http://www.gde-clan.com>, we have a forum dedicated to challenges, and the majority of our people will post there.

Let me get this straight...

You come onto the forums, decide to laugh at my clanmates, for no apparent reason. Then when we go, OK, if you're so good, let's play a sniping match. You accept the challenge (loose meaning, because I believe you have no intention of actually playing it), and we give you the means to make it happen.

BiGN00BLoGIf you want a game you can msn me, post it @ clanwars or here I guess,Im not regestering at another forum to set-up a fucking game that you guys won't even play in.

Right... why don't you come up with another lame excuse to dodge? I think I've heard this one before.

And Spooky, I respect you, as well as for trying to stick up for your friend. But I don't respect people who show blatant disregard for players or their clans, and I think with the way the Renegade community is dwindling (heck, looking at the forum members, half of them don't even play Renegade anymore), this kind of attitude is uncalled for.

One word pretty much sums this one up: wow?

Add me to MSN: blkshrt06@aol.com, that's the easiest way to set up a game, contrary to the popular belief of you gayspy nubs.

Tell ya what, if you want it to get set up in a forum so bad, add me on MSN, set it up, and then YOU make a post in your precious forum so your rockin' clan mates know when to play.

Or you could just do it the westwood way and say, "Hey, how many do you have on right now? Four? Okay, how bout a 4v4?"

But I'm sure that's too much for you to handle.

Well, I can personally tell you that I created +B.R+, have never had a member with "chicken" in his name, and have never asked anyone to join, seeing as we've always had the same 7 people in it.

So its going to go like this?

1v1 snipe islands you nod, no glass,loop,base entry,field,type kill,head shot 3 body shot combo kill. Then you are going to hide at the end of the long tunnel and pop shoot for 15 minutes? I MUST PRACTICE!

And fyi, chickenx5 pw=westwood, everyone uses his name cause it pisses him off, maybe someone on his name TOLD you you could join BR but seeing as me and cackboy are the only people with admin and neither of us would even have the slightest thought of letting your pathetic ass in is beyond me. So technically your full of shit.

And as for that dumbass who cant page on gamespy, you want a game you can add us on msn, schedule a game here, or page us on renegade (rarely on) so msn would be best, I dont see how it is so "hard" for you either.
