Okay..my GSA name shows up differently in Renguard. Will this effect my core download? my gsa name shows like this [BA]IronVane|XHosts| in rengaurd it shows [BA]IronVane XHosts . could this pose a problem for my downloading of the core patch? When i registered at rengaurd.com for the beta..it took my GSA name..i hope this isnt a problem..let me know..thx.

Obviously you should have used the RenGuard name, as RG is the important factor here... just my thought

You could use the locator to see what name you appear as, then use that same name in the beta registration.
