i cant login on renguard site because i seem to be already registered but i havnt so it must have been my brother i was trying to get latest renguard patch

it seems you can only have one user name on one ip but what if you have more users than that ..

i would like some help cos theres no where else to ask..

You don't need to sign in to get the latest RenGuard patch... That is readily available in the Downloads section, as well as when you load RenGuard, it'll automatically patch itself if it's available.

Now if you're talking about CP1, that's a different story for now, as you have to sign up to get the current beta test.

Try again. I made an exception for you to have one more account.

only one thing it still say im registered my ip(\*\*.\*\*.\*) already have an account! You certainly don't need another!

if you did let me have another it never worked

also i asked my bro and he dont have any http://www.renguard.com emails and he dont know the username or password aswell

damn it
