<http://www.xfire.com>

Take a look, download if you like it, great program, enough said.

I looked at it before, but all it seemed to do was just show other people on your buddy list that have it, and have the ability to open games from there.

And everyone knows all those OTHER messengers don't let you talk to your buddies!

As if it were an exclusive feature

The best feature is that you can join your buddie's exact server. You don't have to look around to see which one he's in.
