You get kicked whenever someone says a bad word? Sounds like an internet filter to me. I should know.

While we're on the topic of moderator mishaps, may I point the finger of damnation in Aurora's

direction. I can barely even talk on mIRC anymore, because he usually bans me within ten lines, then offers vague, incorrect explanations for his actions on other channels like #renalert and then bans me from those. It's getting old.

coolboy6000 it kicks me when ever someone says a bad word

Wait, let me get this right. The mysterious 'It' kicks you whenever ANYONE says a bad word? That's awesome. The universal scapegoat. Remind me to cuss frequently.
