I wouldn't say thats RenAlert. After all, RenAlert is based off of Red Alert ONE, not Red Alert TWO. Second, That in no way refers to RenAlert. It infact Refers to Red Alert TWO, made not by the RenAlert team, but made by WESTWOOD.

So congratulations on attempting to insult the company who made Renegade. I have only one question now.... If you think westwood opposes Freedom, and thats is a bad thing, why are you hanging around these forums?

Well, it was funny, but I'm not sure if he meant it to be funny in that way. He's either playing of the common talking points of the Bush campaign by constantly repeating catchy phrases such as "they hate us for our freedom." Basically spreading the same brand of short but sweet talking points that don't mean anything (comparable to the constant barrage of "Reborn Sucks").

Or maybe he's just retarded, I dunno.

I go with the latter. He's not smart enough to think that deeply into his post.

The point being to show how stupid all these reborn post are and no time not going to waste my time in making a proper image i have better things to do with my time.

And yes it was suposed to be funny as even though it took me all over 1 minute to find a pick and post the pointless topic even that was a waste of time that could be better spent.

Then go be an example and spend your time better. Don't you realize how incredibly useless it is to worry about what others make for topics?

Truth be told, the only person with a simple mind here would be yourself. Had you actually made any point, made any sense, and not come off as an idiot this thread would not exist.

Ah, but you see, the Reborn threads have a greater deal of "relevancey" (despite said topics being useless) than this post. At least The images posted can be connected in some way with Reborn.

No.

The Reborn threads express opinions. This is worthless crap, that if it was a magazine, I would take great pleasure manuring my garden with.

One thread on Reborn expresses an opinion posting thread after thread on the same topic and under more than 1 forums catagory is spamming.
