Note that if you are using this code, you need to comply with the licence for the scripts.dll (which basicly means that if you release anything based off the scripts.dll including anything based off this stuff, you have to include complete source code for it)

Dont come to me or Blackhand Studios about this code.

psst... would I get in trouble for putting this onto my site

EDIT

I put them into one large zip and onto my site, if you want it off, off it goes...

Doubt you will get in trouble, as long as you give credit where credit is due.

Go to the black-cell site and read up on it. It did alot and I am not going to sit here and try to cover it all.
