After all this great flaming war, we can now learn some stuff since you are moving to the source engine :

- All the stuff promised to the renalert fans was crap, you don't finish your project, how can you do a such thing ? At least finish your last patch.
- U always flamed reborn about the fact it won't be ever done... Well look at Renalert now...
- Most of your fans now hate you for that decision.
- I think it's a very sad decision.

What do I say : I wish you good luck anyway and I hope you will make it on source. Try to learn the lessons of the time spent here. Don't be so like you use to be...

Bye dear 'enemy'... I will miss 'you' and 'Reborn sucks'.

Renardin6 'Reborn sucks'.

Couldn't have said it better myself. WTF is up with that shit, i downloaded it and i can't get it to work. The installer is crap, i think im now on the side that you guys blow. you really need to redo some of them textures on yoru site aswell, the "new buldings" the textures are stretched all to hell.

well its been almost 2 years now i think since renalert was released, or since reborn was announced., were the fuck is a playable beta??? Jesus christ, at least do what renalert did and release something that WORKS and show us that you are making improvements instead of waiting till everything is perfect because guess what, whether you like it or not Renegade may not be around for ever, people leave the community everyday, do you want the people who've been waiting for this mod to actually be around to play and support it??? I think you should look at this as advice and not me bashing you. Because i think you can do a better job on your public image if you just think for a while and take some advice from someone who wants to play the game and see the mod succeed and be something kickass. (Im a HUGE HUGE HUGE fan of tiberian sun i was ranked number 7 for an entire summer, was in B#E (if you don't know who that is and you played tib sun shame on you))

Besides, work in progress is just a stupid excuse that Reborn uses to try and get away with their poor quality of work.

Quote:- All the stuff promised to the renalert fans was crap, you don't finish your project, how can you do a such thing ? At least finish your last patch.

We never promised anything. I make sure not to promise what I cannot deliver. If I said "We promise we will finish this" then you're right, but you're not. I said "If everything goes according to plan, the patch will be released by ." We made no promise, thus we were under no obligation to finish this last patch.

Quote:- U always flamed reborn about the fact it won't be ever done... Well look at Renalert now...

The letter u acted homosexually towards Reborn because it wouldn't ever get done? I think what you're trying to say is "You insulted Reborn because you thought it would never get done." I'll explain this to you:

Reborn: Three internal tests, one public release that's the same as the internal tests.

Renegade Alert: 10 internal tests, public 0.990 release, 0.991 release, 0.9915 release, 0.992 release, 0.9925 release, 0.993 release, 0.9932 release.

And if we still have the time, 0.9933 is going to get out as the final patch to what we've made. In the span of two years we've done three fold the amount of work you've done and decided to eject out of the burning W3D aircraft in order to parachute to a more safe and productive environment called Source.

Quote:- Most of your fans now hate you for that decision.

If you want a flame war to stop, the easiest way to do so is to NOT make threads on a forum saying that most of RenAlert's fans hate them for recognizing a great opportunity to expand to a better engine.

You should consider doing the same, if you know what's good for you. the Source engine offers things that the W3D engine just doesn't have. Plus many more people have HL2 than Renegade, and even more people can tell you how much your mod sucks.. er, I mean, play your mod.

until then...

Reborn sucks.

...and probably still will in the future, no matter what you do.

If you didnt know that actually people voted to moving to source engine!!!

And like AuroraX0 said, Renegade is dying because there is no more good old Westwood what would propably support it and make even new patches. But we have now big fat EA what supports crappy sims games. (Hopefully some good game studio buys rights to C&C games. it would be better if C&C rights would be now in no one hands that in cappy EA).

How can Renalert move to source engine when the tools (except model viewer and hammer) has been released? You could've at least finish what you were doing and the w3d engine isn't an excuse. There has been numerous releases from Black Hand Studios that fixes many of these problems. No offense, I like you and all AircraftKiller, but it seems like you're blaming everything but yourself which is the main reason for renalert's movement into the source engine. And for the "reborn suxors" I only see three people. Wow three people, that is what, a whole "community" of devout fanatics who insists that reborn sux. I don't get it, what are you trying to achieve? Besides telling every person that reborn sux, you aren't doing much to help. Furthermore this thread should be locked. Renardin6, you're now being more of a jackass than those reborn sux. Don't even try to bash AircraftKiller for every little thing that he does that you're against. Quote:but it seems like you're blaming everything but yourself which is the main reason for renalert's movement into the source engine.

What do I have to do with the movement besides asking the team and having them agree with me? The WOL system is incredibly shitty, there are not enough players to want to work on this, and newer games attract more people.

Quote:And for the "reborn suxors" I only see three people. Wow three people, that is what, a whole "community" of devout fanatics who insists that reborn sux.

Because Reborn did promise those things. They never gave any clause that would prevent them from being accountable, they said "We will not relaease teh bugy beta like that ranalart did it will be perfect," there was never any "We will not relaese teh bugy beta like that ranalart did if it all goes right."

You bit off more than you could chew, and people hate Reborn because of it. We just gave up on this crap engine because there's nothing worth working on in it.

Honestly AircraftKiller, why are you calling me stupid? I have done nothing to offend you. I just expressed my opinion and I'm stupid? This is a forum for free expression of constructive opinion. Yes, I agree, that reborn has ignored you but if they don't want your help, but why hold a grudge? You're acting like the Reborn team back then. Not to offend you again but what hundreds of people hate Reborn? I see the usual 10 or 20 but no more. WOL system doesn't suck, I see lots of people playing renegade online. Renardin, please stop it. There's a reason why people put an "ignore" button there. By continuing arguing, you further perpetuate the arguing. Instead of wasting your time on this continual ring of perpetual flaming, you could've use more time in perfecting Reborn and make something that people can truly appreciate. And if someone says it sucks. Ask them how it sucks. If the best reason they come up with is "it just does" instead of constructive criticism like "The textures need work because it's blocky looking" then they're flaming. Sure some people flame, but not all of them. HTMLgod for instance, he tries to help you some of the times but you assume that he's flaming. Sure he jokes around sometimes while he's offering help but that's no reason to insult him. This also applies to aircraftkiller. He does try to help Reborn. I actually seen some constructive criticism for him but you usually take it as flaming.

Aircraftkiller = flamer = homosexual

so if aircraftkiller = flamer and flamer = homosexual then aircraftkiller = homosexual.

Of course, you have to consider AK as a flamer, I do.

The word "flamer" apparently has more than one meaning to it. You can't apply both meanings to him. It's just stupid. By doing so, I could say that Ellen Degeneres likes to insult people on internet forums because she's a flamer because she's a homosexual. It's either one or the other.

People who accuse others of being homosexual are usually trying to hide their own homosexuality.

AircraftkillerI don't care if the dictionary calls it that. For years, since before the 1970s, flamers have been known as homosexuals.

And "texture maps" have been called "skins" for a long time, but every time someone uses "skins" you bitch and moan that it's not the real term for texture maps. So please...tell me your official stance, because I can't quite figure it out.

That doesn't make them right. The proper term has always been texture. Most professional companies agree on this, including Discreet, Valve, etc...

If you couldn't figure out that I don't like the word skin being used for a model\texture then you're as much of an idiot as I thought you were when you started supporting Reborn last year.

Skin in both gMax and 3D Studio is an animation modifier, not an application for texture maps. WWSkin is a plugin designed by Westwood Studios for the W3D tools.

Oh for fuck's sake, you have absolutely no idea of what you're talking about. Here let me explain it in THE BIG LETTERS so your feeble mind can figure it out.

SKIN AND WWSKIN ARE ANIMATION MODIFIERS. THEY ARE USED IN ANIMATIONS. THEY HAVE NOTHING TO DO WITH TEXTURES.

You're an idiot. Stop avoiding what I'm saying:

-You think "texture" is the only appropriate term, citing that "skin" is not defined as a texture map in the dictionary.

-You act as if "flaming" can only mean "homosexual" even though it does NOT say anything about homosexuality in the dictionary, and actually DOES reference online arguing.

Quoting the dictionary constantly and being a grammar Nazi has come back and bitten you in the ass, and you're such a pussy you won't even acknowledge it. If your grammar rules are based on your personal preference and not the dictionary, why are you imposing your grammar "rules" on others by correcting them?

Ack is the fucking idiot!

the moron aircraftkiller and his ass lickers can't stop to bash Reborn. Do you think you look more clever by saying : Reborn sucks!

I have seen posts of ack on most forums of c&c fan site. Everytime he finds some people talking about Reborn, he says some shits about it. How can you be more retarded than that? Hmm, you can't! Even by saying : "aircraftkiller sucks" I can't look more retarded as him, I don't say it the whole day, I don't write it on each forums, I don't say it when I play a game (like he does : come along brothers! all with me! Reborn Sucks...). But this moron needs that, he needs to feel himself important, he likes when you lick his ass and when you talk about him... I have never seen a such idiot on the net. I was a nice person with him at the beginning, I even had some respect for him. I lost all respect for that fucker when he started bitching again about Reborn for some old flame war with the old Reborn team.

I have a nice text that explain you what ack is :

There is nothing more sad then posting a story about someone like this. I mean, how can anyone even attempt to insult, and belittle someone with such an immensely powerful self image. You can't - you can try but no matter what you say or do. Nothing will penetrate the self loving and pompously arrogant protective layer he casts on himself.

For someone to have such a proud and arrogant image of himself and yet to totally undermine everyone else and what they do is the only reason, Aircraftkiller is a noob at life. Believing others are always wrong regardless of the facts and openly say they are wrong, belittle them, insult them, and get completely irritated at the fact they challenge or defend their believes and ideas from Aircraftkillers wrath, is only the tip of the iceberg.

suck. But this is not where Aircraftkiller stops. No, he wants every single person who ever read anything on Renegade to openly bash and insult Reborn. Don't get me wrong, it's not just Reborn. It's everything he doesn't like, Users, people he has never met, games he has

never played, movies he has never seen, Ideas he doesn't understand, and even words and phrases every day people use that he doesn't agree with. Once Aircraftkiller's mind is made up there is no changing it. It all comes down to the unstoppable arrogance that makes up Aircraftkiller. Yet he will play the game – I never said I was right I just know you are wrong. I don't know if this is just some pathetic mind game or he actually believes it. But if he is doesn't believe he is right, just knows you are wrong. Doesn't that make him a mentally unstable...?

Everyone in the world is wrong because I say they are wrong. But I never admit I am wrong and I don't say I was right.

This is an unstable view of Life itself.

Lastly as the icing on the cake – I write this banned from #n00bstories a channel in which I administer part of the channel and part of the website YOU now read. To be honest I have nothing else better to do. I am sitting here waiting for my dinner to arrive. I wasn't even going to post a story about Aircraftkiller. Only because I know and I'll quote what I said at the start "Nothing will penetrate the self loving and pompously arrogant protective layer he casts on

Vote what you like, this is more for Aircraftkiller then me, although it falls on blinded eyes.

I can show you more :

The answers of most people to that were so realistic :

Quote:

1) aircraftkiller: you suck, you gay mod sucks and reborn would pwn it any day even tho it sux too

2) I like how he is keeping quite.

I bet he has seen this about 5 times or more today.

Keeping his head low.

What

A

Looser

3) FUCK AASSCRACKKILLER

4) Everything you said in this n00bstorie is true. ACK is probably the most arrogant person in the community. He flames almost everything that is not his, Reborn just happens to be at the top of his list. He decided Reborn sucks almost a year ago now, when they tried to rush it out for Christmas and they released it when it wasn't totally done (I think). I haven't played it but I would assume they fixed everything wrong with it and now it probably isn't that bad.

But back to the point, you have to hate ACK's attitude toward the people on renegade because of the way he thinks he can talk down to people.

But on the other hand he has contributed a lot to the community and for that I respect him.

But seriously he could quit today would anyone really miss him? Someone would probably take over the RenAlert leadership thing and when's the last time he made a map for renegade.

10 because this is about his attitude
not some n00b flaming his maps

5) ACK is an asssssss

6) He's in his early 20's and acts like he is a 13 year old on the web.
When will he get the picture that what ever he is like on the web, people will see that in his personality, in real life (for the people that know him).

I am not going to say I hate him, as I have better things to do than sit in a corner, rocking back & forth repeating "I hate ACF, I hate ACF".

I am not going to say I like him either, because people that have no human relations do not deserve to be on this earth to be frank with ya. People with a similar personality to him really are scum of the earth.

When will you grow up eh Jon?
When will this constant "Reborn Sucks" campaign end?
When will you STOP thinking you are the Matrix?
WHEN WILI YOU STOP BEING YOU?

7) 10 because ack is a noob who needs to have his privileges taken away, his maps suck ass, (they are very poorly designed, my left nuts could do better), he sucks ass (he cant play worth a damn without having to kick someone to make up for his low self esteem level) whenever i join a game on renegade if he is in it i will immediately leave.

10. Finally, someone stands up to Aircraftkiller.

9) I remember the days when I worked on the C&C Commando Project. I possessed images from the original C&C which were very very rare in the C&C Community.

He wanted them.

How I know this?

1) He added me to his MSN (although he has not been online till this day)

2) When playing on Ren Alert one time, I just got home from work, after a long hard day of upgrading 30 computers, installing windows, installing software, configuring windows, etc... It was a very stressful day. I come home from work, wanting to chill out, as I already said, I played RenAlert (new patch at the time). I joined the n00bstories server. Little to my knowledge that ACF was JupitersK (until I found out from Pendullum afterwards) who was also in game. I got a PM from this guy asking if I was the person who had the C&C images. I said Yes. Then, it was then, I got another PM practically HIM demanding these images and for me to send them to him over MSN.

I said No, I explained the situation, about me coming home from work, wanting to chill out, relax and play RA. It was then, he threatened me & Seaman (leader of commando) with a Ban from all

the n00bstories servers.

It was then I was so pissed about being threatened after that hard days worth of work, I just left the server to save him any embarrassment.

So my Question to you, Jonathan. Why do you have to be so demanding, so negative, threatening?

Why can't you be like the rest of us and get along?

10) This story was well written, well punctuated and actually has a point.

11) if u take ACK and change the A to a W and change the C to a S and the K to a O then u'll get W5O wich makes no sense

but wat does make sense is that ACK is JACK ASS i dont like his maps especially glacier flying REBORN SUCKS the MM II is too powerfull wich gives nod an advantage and guys you gotta stop picking on ACK so many people hate him that he might feel unwanted and kill himself...not sure if thats a bad thing or god thing

12) Asscrackfiller - arrogant, ignorant, retarded. GG

13) Its not "for the head people" its for everyone.

ACK is abuseing his powers greatly on everyone, even some of the "head people".

He needs to shape up or ship out.

14) Ack is t3h sucks

15) ACK your an asshole as far as im concerned.
makes me remember that song djlaptop made a while ago..haha

16) ASS ASS ASS ASS ASS ASS ASS ASS ASS ASS ASS

17) ya i kno thats the sad part about this comunity. ACK!

18) hehe, Aircraftkiller (also known as arrogant cock kid or ACK) dose have that problem.

Iv been seeing a lot of unjust bans from him.
hehe, he even n00b voted your story.

19) Im banned from IRC as well, right before he banned SencneS. ACK is nothing but a n00b at life. He's right, your wrong. The saddest thing is i've heard 3/4's of these people who back ack say they hate him in the same sentence. Everyones so scared to say anything to the almighty ack because he has power, power someone as ir responsible as him should not have.

O and i'll go ahead and say it for you, OMFG LIK THERE ARE MISPELLED WORKS OMFG IDIOICY U R BANNED OMFG!

Read the rules yourself ack , and then go die

20) Quote:

Nothing will penetrate the self loving and pompously arrogant protective layer he casts on himself.

rofl lol

+9 for that

+1 for taking on aircraftkiller

So that makes 10 genius

21) THE LAST FUNNY ONE : ACK HIMSLEF :

You're wrong because, well, you're wrong. You make outrageous claims because you can't follow the channel rules, then blame it on me because I banned you from the channel.

If you had some kind of self control it wouldn't have happened.

-->> that defines well the guy, an idiot !

It's not a flame war... I hate to break it to you but this entire problem is centered around you and how incredibly unskilled, stupid, and lazy your current team is - with few exceptions.

What SencneS wrote is nothing but his opinion based on little, if any knowledge of me or who I am. I could judge every facet of your personality from our limited exchange and try to turn this "Reborn sucks and Renardin's online persona is retarded as hell" debate into about how evil and stupid you are, but that's crossing the line into ignorance.

It's unfortunate that you don't see this. It only illustrates my points.
