In the last few months, the clanwars.cc league has been something close to dead. Only one or two clans would really play competitively each month. However, at the start of December, about four or five top clans who hadn't been playing for a while, all agreed to come back, play competitively and inject a bit of life into the league.

I'm basically saying, if there was a good time to take a clan onto a competitive level, that time is now.

Maybe not many people are joining it and using that service is because it COSTS money! I would never sign up for that! \$120 AMERICAN for a renegade service that a monkey and a blow up doll could do? No thanks.

What the hell are you talking about?

Spoony is saying that a lot more clans are playing for December, so now would be the best time for clans to start playing, cause there is a lot of competition. It doesn't cost 120 American to clanwar you idiot, just log on to Renegade, go in to chat, say 'wanna clanwar' and boom, your in a clanwar, free of charge!!!

Renegade is an increasingly old game. I think there are enough teams, just not as many teams in the size and caliber it used to be because a lot of the veteran players who had the most skill have since quit renegade.

you don't have to sign up or anything, if you've been playing on WOL with your clan, your clan should already be on the list. If your clan isn't on the list, then you'll have to keep playing and playing and eventually your clan will show up.

I can guarantee that you have never played BiGPooLoG (aka Uded6) when he's playing for real. Maybe mucking around in a public but not when he actually tries.

I have played against him when he plays for real, and at times, it's fucking scary. I can think of only one person I would rate as actually better than him (mysteriously absent from that list)

Well...First of all what you have to understand is that no matter how many public games you play. That doesn't make you any better at all. That just means that you know the right spots to camp and make points (I don't know if that's your case, if it's not then good for you).

I'm not going to get in any side here even though Clanwars is where i am most active on. I have played Clanwars against and with the best warriors that this game has seen. I don't feel like mentioning anyone, but For those that don't know me take my word that I have been here for

years and when I started playing this game I was just pointing out the WOL ladder and I thought the same of Clanwars, that they were easy and pointless, but after my first month playing clanwars. I realized that It is 1000% harder than I thought. It's not the same thing playing on a 40 players server with 5-6 mixed good people that are good than playing a 3vs3 or more on a clanwar.

It's just not the same thing because when you play a clanwar. Most of the times you are playing with people with as good or better skills than you, Organized game and most important on Teamspeak. If you just don't believe me Cowsmisfit, you can go ahead and ask Boink or kil4fun which are the ones that I have played Clanwars against when the real [DOM] was around which I was once part of. (irrelevant, but I just thought it would be worth mentioning).

Clanwars is the only thing that I have fun with anymore on this game. If you are getting bored of this game you should try it too. It is a lot of fun and you get a lot more skills faster than just playing Public Servers. I know you were part of [FoD] with boink and I saw you guys clanning sometimes, but I don't know really know how many games did you guys win or lost, but looks like you guys didn't face the best clans at that time or else you would have seen the Skill level of the top clans from Clanwars, Which I have always been a part of as well.

I already know that this won't make you change your mind, but just think about it and It will make some sense.

BTW if you think I am just another newbie bashing on your "Forum Veterans" just go ahead and ask the most veteran renegade player you know...they would know who I am. IE: The creators of this forum or someone as old player as them.

It seems everytime CW is mentioned here it erupts into a huge arguement about whos better or whatever.

I think you guys should just drop this arguement right now because it will just get bigger and bigger, a game will never be arranged to settle it, and eventually crimson will notice this thread and start dropin the ban hammer on the people from CW.

The real veterans on this forum know exactly what clanwars is.

We are the skilled assholes of renegade.

Yes clanwars is the most skilled community on renegade but come on what have we really done for this game besides come onto the n00bstories forum or the renforums or the pits forums and challenge / annoy people.

The people here are who are really keepin ren alive.

But dude

advise dont ever call someone from CW a newbie cuz you will get bombarded with challenges.

You don't come into a forum which you know nothing about and start taking on people you know nothing about. It's a recipe for disaster. Then again, so is alcohol mixed with a fat whore, right BiGPooLoG?

And you don't go onto a game forum which you don't play and have no idea what's going on and keep talking right buddy?

And for Mr.Misfit, I don't think I've ever "encountered" you, and the records aren't from just recently either :rolleyes:

I have no idea what's going on? That's funny, I thought I've been keeping up on all Renegade current events for the past 3 years. I guess you know more than me, I mean, you've been here what, a whole 1 day? I'm sorry I've angered thy master. I request my master's forgiveness.

IceSword7It seems everytime CW is mentioned here it erupts into a huge arguement about whos better or whatever.

Heh, most of the time it's because when they are mentioned it's due to a CW member uttering words such as "1v1", "n00bstories vs Clanwars", "dodgers" ect.

So far no one has done anything bad this time, so I don't think bans would be in order.

cowmisfit you'd know at least who [FoD] was,

umm ok, i remember when i started playing renegade and being a ladder whore, one guy asked me to join FOD (forces of diversion) along with my buddy A0Sweeper, he said i dont even have to play clanners, but its "cool" to be together in the same clan w/e that meant, i didnt join anyway even though they gave me the join pass,

FOD is/was in the same level as PROX12 clan and thats the fact

cowmisfit o wait your one of those kids who's been playin for a few months and thinks he's the shit

aint ya

if u have lost 9 out of 10 games against H20 clan, then u really shouldnt have room to talk here, and if u think u and ur friends are "shit", then lets arrange a game, lets say 10vs10 or smth?

Notice this, i didn't play in those clanners against H20, did you own us?? yes, in aow, because our aow team blows and i know that, our snipers team has gone to hell as well except for me and one or two of the others. AT one time we would have had no problem with you but many of our players have left to play other games or just get out and enjoy life.

Wiskey if you think i have no room to talk, lets play 1 vs 1 snipe over christmas break.

cowmisfitIts so easy because everyone on there sucks, when i can go in any server on the game and get best k/d and most kills every game and get top 5 just sniping in AOW (Deadeye Blackhand) Its fucking sad, or when i go in a server and can get 20 MVP's in a row.

Ah.... I remember the days when I could get MVP in a public server and thought I was the best player ever because of it. (About a year ago). Guess what happened after that? I'll tell you.

I played Icesword7 and Doomflama 1v1, got absolutely assraped by both of them. I then realised there was a whole skill level that I had never seen in public servers, and a year later I still haven't.

Public servers are easy as fuck to win, because most of the time they are full of idiots and noobs, and even when they are full of "decent" players, they aren't working in co-ordination. When I say "co-ordination", I don't mean three people deciding to get stanks at the same time.

I can get a med, light, artillery or an orca/apache and get 100 kills 0 deaths in twenty minutes with my eyes closed... in public servers, that is. In a clan game, that would not happen in a million years.

cowmisfitIt gets old after a while, i played from the release, the fun ran out for me, too many nubs who accuse of cheating , it makes it no fun.

If you played BR, FE or LIGHT in a small game, say 5v5, they wouldn't be the ones making the cheat accusations, you would be.

cowmisfiti'd figure if you have been in the community longer than a month you'd know at least who [FoD] was, o wait your one of those kids who's been playin for a few months and thinks he's the shit aint ya.

Do you consider me "oldschool"? Most people at N00bstories seem to. Odd really, because I bought Renegade about a year and a half after BiGPooLoG did.

cowmisfitI don't even have to make this kid look like a moron, he's doin a mighty fine job of that himself lol.

I don't have anything against you so this isn't a flame: BiGPooLoG is right, you are wrong.

j\_ball430Why the fuck do you newbies come up in here and start attacking the forum veterans? It doesn't make any fucking sense at all. You can't possibly win when you do.

Refer to my above statement about being "oldskool". Other than thread, if you read this thread from start to finish you'll notice it wasn't BiGPooLoG who started the flaming.

j\_ball430I wasn't talking about you. I was talking about Mr. 8 posts who registered today."

Let me tell you why BiGPooLoG decided to register today: because I happened to see a different thread where a clan called DT challenged BR to a game. BR members don't visit this forum as far as I know, so I showed the thread to Mr B. Log.

Also, I didn't start anything because of another thread. The other thread had the same type of annoyance from a newbie. Which is why I got annoyed by it, and then saw yet another newbie say the same thing.

j\_ball430No. I didn't start any flaming.  
Does it make you feel better to tell yourself that?

j\_ball430All I asked was why these newbies felt like they can come in and say what they wish to people who are much more respected than them.  
I'm starting to suspect you haven't read a single word I posted.

j\_ball430I'm certainly not jealous about your "vast" logic and intelligence.  
Firstly my mis-spelling of the word "jealous" was an absolutely intentional private joke which quite a lot of people "get", secondly I wouldn't disparage my logic since I have clearly and rationally presented arguments whereas you haven't, thirdly I'm not even gonna go near your "intelligence" remark.

j\_ball430Will you just shut the fuck up already? You've already pissed off enough people as it is  
No, he's pissed one person off. And that person seems to get pissed off rather easily by comments which are completely inoffensive.

j\_ball430and you're not even included in this conversation.If you can make such a judgement, then so can I. You are no longer included in this conversation.

Show me proof as to where I said anything towards him that was anywhere near a flame, before he did, and don't go quoting that one again because it's clearly not a flame. I'll give you enough credit to believe that you know that.

I've read every post that you've made. I don't care whether or not he's respected, the fact is that I didn't know who the fuck he was when he first posted, and since he's a newbie to the forums, I had every right to say it.

Don't say a private joke that I'm not a part of. You were asking for me to hold that against you. I've presented arguments just as well as you have, but you seem too stuck in your ways to see that. I only said the intelligence remark because of your misspelling. Maybe I'll just say that's a private joke and expect that you were supposed to get it. :rolleyes:

He's an idiot, and I'm not just talking about this thread.

He wasn't a part of our conversation, and he decided to butt-in. Hence why I said that. Since I AM a part of the conversation, I'm using my judgement to say that I am a part of it.

j\_ball430I've read every post that you've made.  
Perhaps, but it's fair to say you haven't understood them.

j\_ball430I don't care whether or not he's respected  
Seems to me you're completely going back on what you said earlier about the way people should act to people "more respected" than themselves. First being "respected" is paramount, then it's irrelevant?

j\_ball430the fact is that I didn't know who the fuck he was when he first posted  
Likewise, I didn't know who you were either, but did I flame you right off the bat? No. For that matter, neither did BiGPooLoG.

j\_ball430and since he's a newbie to the forums, I had every right to say it.  
I didn't realise your post count determines your worth as a human being. We learn something every day, don't we.

j\_ball430Don't say a private joke that I'm not a part of. You were asking for me to hold that against you.  
^^ what the hell?

j\_ball430I've presented arguments just as well as you have  
I really hate to burst your bubble, but no, you haven't.

j\_ball430but you seem too stuck in your ways to see that  
If being "stuck in my ways" means I'm actually capable of thinking in a straight line, then you can

congratulate yourself in the fact that you are not "stuck in your ways".

j\_ball430I only said the intelligence remark because of your misspelling. You missed a hyphen. Clearly you are educationally subnormal!

j\_ball430Maybe I'll just say that's a private joke and expect that you were supposed to get it. Maybe you'll say something completely off-topic, baseless and unsupportable to avert attention from the fact you were absolutely dead wrong.

j\_ball430He's an idiot, and I'm not just talking about this thread. I really don't think you're in a position to say something like that.

j\_ball430He wasn't a part of our conversation, and he decided to butt-in. Hence why I said that. Since I AM a part of the conversation, I'm using my judgement to say that I am a part of it. Unless my memory and my eyesight completely fail me, your only involvement in this thread was regarding the fact that you supposedly had to pay to clan competitively. Wrong again, what a surprise.

BiGPooLoG did not flame anyone on this thread, and has it occurred to you that he "butted in" BECAUSE SOMEONE ELSE WAS TALKING ABOUT HIM? What am I thinking: of course that connection hasn't occurred to you, your thought-processes aren't that linear.

He's not well respected on these forums, so I don't exactly see how that applies.

I didn't start flaming him. Again, I had just asked a question.

When did I even apply that it does? The amount of time you've been here, helps to somewhat determine the amount of respect you get.

You said that saying "jelos" was a private joke. I'm not a part of that, so don't expect me to get it since I'm not.

Yes, I have. You just seem to think that everything I say is irrational.

Meh, maybe that made no sense. Either way, you just seem to ignore all my posts.

Both spellings are correct. Clearly you are educationally subnormal as well!

I was just making a point, that you seemed to overlook again.

I'm not an idiot, so I think that I am in a position to say so.

Like I play Renegade? I figured SuperMidget knew what he was talking about. I didn't care

enough to find out for myself.

I realized that as soon as I posted it, but I figured you couldn't see me as any more of an "idiot" anyways, so I didn't change it.

j\_ball430He's not well respected on these forums  
...and... you are?

If you believe an opinion is worthless unless you registered before a particular date or your post count is over a particular figure, then I feel nothing for you but the most abject pity.

j\_ball430I didn't start flaming him. Again, I had just asked a question..  
No.

You "asked a question" which was directly intended to flame (something you clearly aren't adept at, I must say) someone who had said absolutely nothing offensive, and to further demonstrate your stupidity, YOU CAME TO THE CONCLUSION THAT HE WAS THE ONE BEING AN "ASSHOLE"

j\_ball430The amount of time you've been here, helps to somewhat determine the amount of respect you get.

I've been on this forum longer than my post count and my registration date would imply, so you've embarrassed yourself there. (again)

Has it occurred to you that while you've been posting garbage on this forum and believing the amount of garbage you've posted proves you're a better person, BiGPoolLoG has actually been playing the game which this forum revolves around?

j\_ball430You said that saying "jelos" was a private joke. I'm not a part of that, so don't expect me to get it since I'm not.

To be brutally frank, I really don't expect you to understand anything at all.

j\_ball430Yes, I have. You just seem to think that everything I say is irrational.. "Think" is the wrong word. "Think" implies uncertainty. The fact that you have spectacularly failed to raise a valid point, is no uncertain matter.

j\_ball430you just seem to ignore all my posts.

I'm not ignoring them, I'm saying they are complete rubbish. There's a difference.

j\_ball430I was just making a point

I'll admit, I've been completely irrational while posting, but I do have a rational explanation. I'm not using it as an excuse, and if you insist that it is, I'll regard you as I've regarded BiGPoolLoG.

I've been extremely stressed out and tired lately. I'm not saying all my actions should be excused because of that, but you can now realize why I have been acting the way I am.

I do, however, find it funny that you completely ignored my comment about me respecting you. Why is that? Is there a reason for me to NOT respect you?

-----

I never said I was well respected, but I sure as hell am more respected than he is on these forums. Whether or not I'm more respected than you and others is not the point.

Who the fuck are you to tell me what my posts are intended to mean? I'm pretty sure that I am the only one who really knows what my intentions are. Just as only you know what your intentions are in a post.

We all know you've been here for a long time. I'm not just looking at the member number or amount of posts you have. Notice how I said "amount of time". Nowhere in my statement did I address member number or number of posts. Stop trying to say what I mean, because you obviously don't know.

Why the fuck do you keep addressing the idea that my post count actually means something? I never said post count does...post counts only tell whether or not you spam. As you can see my post count, I've done my fair share of spamming.

You don't know me. I may not be the smartest person, and I certainly don't give a fuck enough to pretend that I do, but I certainly am not stupid. My GPA is horrible, but that has nothing to do with my intelligence level. Anyone will tell you that.

Now you're God, eh? Whatever you say goes? So just because you THINK you KNOW that I'm irrational then it automatically is? Yeah, who's thinking he's the better person now? :rolleyes:

You don't address any of my valid points. While you don't seem to think I have many, you must agree that I have more than you've attempted to debunk.

Again, why is it that you think you're God?

j\_ball430I do, however, find it funny that you completely ignored my comment about me respecting you. Why is that? Is there a reason for me to NOT respect you?

I don't much care whether I am respected by someone I've never heard of, that's why I ignored it. How much do you actually know about me? Not much, I'm guessing. But you respect me? Why's that then?

j\_ball430I never said I was well respected, but I sure as hell am more respected than he is on these forums. Whether or not I'm more respected than you and others is not the point.

What do you want, a biscuit? If BiGPooLoG has made a post saying "OMG I DEMAND YOU ALL RESPECT ME", I haven't seen it. I'm still confused as to why you jumped on him about "forum veterans", but we can chalk that down to being "tired" if you really want.

j\_ball430We all know you've been here for a long time. I'm not just looking at the member number

or amount of posts you have. Notice how I said "amount of time"  
Like I said, not that long. Not as long as BiGPooLoG, that's for sure. But maybe he just doesn't post on this forum?

j\_ball430Nowhere in my statement did I address member number or number of posts. Stop trying to say what I mean, because you obviously don't know.  
I do apologise. I don't know where I could've gotten the idea that you judged "forum veterancy" by post count or registration date.

j\_ball430I've done my fair share of spamming.  
Yes, I think we can agree on that.

j\_ball430You don't know me.  
You flamed BiGPooLoG because you didn't know him. See the gaping flaw?

j\_ball430I may not be the smartest person  
No shit.

j\_ball430Now you're God, eh?  
I was actually worshipped as a god once, but that was nothing to do with Renegade. I guess they'd never seen a white person before.

j\_ball430So just because you THINK you KNOW that I'm irrational then it automatically is? Yeah, who's thinking he's the better person now? :rolleyes:  
You haven't given me a reason to think otherwise yet.

j\_ball430You don't address any of my valid points.  
For you to say that would be akin to me saying "You can't shoot down my helicopter!" I don't have a helicopter, therefore you cannot shoot down what does not exist. See what I'm getting at?

j\_ball430While you don't seem to think I have many, you must agree that I have more than you've attempted to debunk.  
For me to agree that would be to agree that black is white.

j\_ball430Again, why is it that you think you're God?  
I may as well ask "Why is it you think you're from Saturn?" Have you given any indication that you believe you are from Saturn? no... Have I given any indication that I think I'm God? no....

No, not "cause" my posts are "almost" as bad as Zach's. Spooky isn't doing shit but twisting my posts. He used to be respectable in my eyes, but now he's just becoming an asshole. Trust me, it's not because he's arguing with me. I argue with plenty of people, but I don't see them as assholes. I've noticed a change for the worse, and I'm not the only person who has, either.

I know I'm making myself look like an ass, but if you cared to see my reasoning, you'd at least understand...if you're capable.

gotwhiskeyfirst of all cowmisfit, i've played against you and your clan in a clanwar, and we're 9 out of 10 wins so far.

<http://www.YeahClan.tk> go to screenshots - EoE clanwars

You guys have no idea who poolog is, he is arguably the best Renegade player who still plays, so show him some respect. Quit embarrassing yourself by calling him a 'noobie'.

PS---> Glyde quit pretending you have active clan members, even if you did your clan is pathetic, end of story.

You don't know my clan. The end.

You gave this link to your clan's history on ClanWars...

<http://136.142.210.78/CW/Leagues/Ren/ClanInfo.aspx?ClanID=10895>

So that shows this...

Let me tell ya, that 54% career win percentage really shows me how easy it must have been for ya. :rolleyes: And you hardly played anyone that would be considered "good" by today's standards. So, ya, congratulations?

WTF is the point of challenging people here.

A: They have nothing to prove

B: They just dont wanna play

C: They quit renegade

Basiicly what sword said is right, im one of those ONLY sniper persons, but guess what playing me wouldn't matter much , because like he said "quit renegade" as in i have played mabey 2 times in about 4 or 5 months.

Im starting to get somewhat into it again, i don't have time for it anymore like i used to. I have a job , school, and one of those things called a social life to take care of now.
